

PRACTICE EXAM 12: TSI QUICK STUDY GUIDE (146 QUESTIONS)

This mixed TSIA2 practice exam contains 146 multiple-choice questions. The official assessment is adaptive and untimed; use this review to practice Mathematics and English Language Arts and Reading skills. Choose the single best answer for each question, then check the answer key and explanations.

1. A jacket normally priced at \$120 is reduced by 5%. What is the new price before tax?

- A. 6 dollars
- B. 114 dollars
- C. 126 dollars
- D. 113 dollars

2. A jacket normally priced at \$127 is reduced by 10%. What is the new price before tax?

- A. 12.7 dollars
- B. 139.7 dollars
- C. 115 dollars
- D. 114.3 dollars

3. A jacket normally priced at \$134 is reduced by 15%. What is the new price before tax?

- A. 113.9 dollars
- B. 20.1 dollars
- C. 154.1 dollars
- D. 117 dollars

4. A jacket normally priced at \$141 is reduced by 20%. What is the new price before tax?

- A. 28.2 dollars
- B. 112.8 dollars
- C. 169.2 dollars
- D. 119 dollars

5. A jacket normally priced at \$148 is reduced by 5%. What is the new price before tax?

- A. 7.4 dollars
- B. 155.4 dollars
- C. 141 dollars
- D. 140.6 dollars

6. A jacket normally priced at \$155 is reduced by 10%. What is the new price before tax?

- A. 15.5 dollars
- B. 170.5 dollars
- C. 139.5 dollars
- D. 143 dollars

7. A jacket normally priced at \$162 is reduced by 15%. What is the new price before tax?

- A. 24.3 dollars
- B. 137.7 dollars
- C. 186.3 dollars
- D. 145 dollars

8. A jacket normally priced at \$169 is reduced by 20%. What is the new price before tax?

- A. 33.8 dollars
- B. 202.8 dollars
- C. 135.2 dollars
- D. 147 dollars

9. A jacket normally priced at \$176 is reduced by 5%. What is the new price before tax?

- A. 8.8 dollars
- B. 184.8 dollars
- C. 169 dollars
- D. 167.2 dollars

10. A jacket normally priced at \$183 is reduced by 10%. What is the new price before tax?

- A. 164.7 dollars
- B. 18.3 dollars
- C. 201.3 dollars
- D. 171 dollars

11. A jacket normally priced at \$190 is reduced by 15%. What is the new price before tax?

- A. 161.5 dollars
- B. 28.5 dollars
- C. 218.5 dollars
- D. 173 dollars

12. A jacket normally priced at \$197 is reduced by 20%. What is the new price before tax?

- A. 39.4 dollars
- B. 157.6 dollars
- C. 236.4 dollars

D. 175 dollars

13. A jacket normally priced at \$204 is reduced by 5%. What is the new price before tax?

- A. 10.2 dollars
- B. 214.2 dollars
- C. 197 dollars
- D. 193.8 dollars

14. A jacket normally priced at \$211 is reduced by 10%. What is the new price before tax?

- A. 21.1 dollars
- B. 232.1 dollars
- C. 189.9 dollars
- D. 199 dollars

15. A jacket normally priced at \$218 is reduced by 15%. What is the new price before tax?

- A. 32.7 dollars
- B. 185.3 dollars
- C. 250.7 dollars
- D. 201 dollars

16. A jacket normally priced at \$225 is reduced by 20%. What is the new price before tax?

- A. 45 dollars
- B. 270 dollars
- C. 203 dollars
- D. 180 dollars

17. Find the value of x : $2x - 3 = 7$.

- A. 2
- B. 20
- C. 5
- D. 12

18. Find the value of x : $3x - 3 = 15$.

- A. 6
- B. 4
- C. 54
- D. 21

19. Find the value of x : $4x - 3 = 25$.

- A. 5.5
- B. 7
- C. 112
- D. 32

20. Find the value of x : $5x - 3 = 37$.

- A. 6.8
- B. 200
- C. 8
- D. 45

21. Find the value of x : $2x - 3 = 15$.

- A. 6
- B. 36
- C. 20
- D. 9

22. Find the value of x : $3x - 3 = 27$.

- A. 10
- B. 8
- C. 90
- D. 33

23. Find the value of x : $4x - 3 = 41$.

- A. 11
- B. 9.5
- C. 176
- D. 48

24. Find the value of x : $5x - 3 = 57$.

- A. 10.8
- B. 300
- C. 12
- D. 65

25. Find the value of x : $2x - 3 = 23$.

- A. 10
- B. 52
- C. 28

D. 13

26. Find the value of x : $3x - 3 = 39$.

A. 12

B. 14

C. 126

D. 45

27. Find the value of x : $4x - 3 = 57$.

A. 13.5

B. 240

C. 15

D. 64

28. Find the value of x : $5x - 3 = 77$.

A. 16

B. 14.8

C. 400

D. 85

29. Find the value of x : $2x - 3 = 31$.

A. 14

B. 17

C. 68

D. 36

30. Find the value of x : $3x - 3 = 51$.

- A. 16
- B. 162
- C. 57
- D. 18

31. Find the value of x : $4x - 3 = 73$.

- A. 17.5
- B. 19
- C. 304
- D. 80

32. Find the value of x : $5x - 3 = 97$.

- A. 18.8
- B. 500
- C. 20
- D. 105

33. A rectangular patio is 10 meters long and 3 meters wide. What is its area?

- A. 26 square meters
- B. 13 square meters
- C. 23 square meters
- D. 30 square meters

34. A rectangular patio is 11 meters long and 4 meters wide. What is its area?

- A. 44 square meters
- B. 30 square meters
- C. 15 square meters
- D. 26 square meters

35. A rectangular patio is 12 meters long and 5 meters wide. What is its area?

- A. 34 square meters
- B. 17 square meters
- C. 60 square meters
- D. 29 square meters

36. A rectangular patio is 13 meters long and 6 meters wide. What is its area?

- A. 78 square meters
- B. 38 square meters
- C. 19 square meters
- D. 32 square meters

37. A rectangular patio is 14 meters long and 3 meters wide. What is its area?

- A. 34 square meters
- B. 17 square meters
- C. 31 square meters
- D. 42 square meters

38. A rectangular patio is 15 meters long and 4 meters wide. What is its area?

- A. 38 square meters
- B. 60 square meters
- C. 19 square meters

D. 34 square meters

39. A rectangular patio is 16 meters long and 5 meters wide. What is its area?

A. 42 square meters

B. 21 square meters

C. 80 square meters

D. 37 square meters

40. A rectangular patio is 17 meters long and 6 meters wide. What is its area?

A. 46 square meters

B. 102 square meters

C. 23 square meters

D. 40 square meters

41. A rectangular patio is 18 meters long and 3 meters wide. What is its area?

A. 42 square meters

B. 21 square meters

C. 39 square meters

D. 54 square meters

42. A rectangular patio is 19 meters long and 4 meters wide. What is its area?

A. 76 square meters

B. 46 square meters

C. 23 square meters

D. 42 square meters

43. A rectangular patio is 20 meters long and 5 meters wide. What is its area?

- A. 50 square meters
- B. 25 square meters
- C. 100 square meters
- D. 45 square meters

44. A rectangular patio is 21 meters long and 6 meters wide. What is its area?

- A. 126 square meters
- B. 54 square meters
- C. 27 square meters
- D. 48 square meters

45. A rectangular patio is 22 meters long and 3 meters wide. What is its area?

- A. 50 square meters
- B. 25 square meters
- C. 47 square meters
- D. 66 square meters

46. A rectangular patio is 23 meters long and 4 meters wide. What is its area?

- A. 54 square meters
- B. 92 square meters
- C. 27 square meters
- D. 50 square meters

47. A rectangular patio is 24 meters long and 5 meters wide. What is its area?

- A. 58 square meters
- B. 29 square meters
- C. 53 square meters
- D. 120 square meters

48. A rectangular patio is 25 meters long and 6 meters wide. What is its area?

- A. 62 square meters
- B. 150 square meters
- C. 31 square meters
- D. 56 square meters

49. Calculate the mean of the data set 7, 9, 11, and 13.

- A. 13
- B. 11
- C. 10
- D. 40

50. Calculate the mean of the data set 8, 10, 12, and 14.

- A. 11
- B. 14
- C. 12
- D. 44

51. Calculate the mean of the data set 9, 11, 13, and 15.

- A. 15
- B. 13
- C. 48

D. 12

52. Calculate the mean of the data set 10, 12, 14, and 16.

A. 13

B. 16

C. 14

D. 52

53. Calculate the mean of the data set 11, 13, 15, and 17.

A. 17

B. 14

C. 15

D. 56

54. Calculate the mean of the data set 12, 14, 16, and 18.

A. 18

B. 16

C. 15

D. 60

55. Calculate the mean of the data set 13, 15, 17, and 19.

A. 16

B. 19

C. 17

D. 64

56. Calculate the mean of the data set 14, 16, 18, and 20.

- A. 20
- B. 18
- C. 68
- D. 17

57. Calculate the mean of the data set 15, 17, 19, and 21.

- A. 21
- B. 18
- C. 19
- D. 72

58. Calculate the mean of the data set 16, 18, 20, and 22.

- A. 22
- B. 20
- C. 19
- D. 76

59. Calculate the mean of the data set 17, 19, 21, and 23.

- A. 23
- B. 21
- C. 80
- D. 20

60. Calculate the mean of the data set 18, 20, 22, and 24.

- A. 21
- B. 24
- C. 22
- D. 84

61. Calculate the mean of the data set 19, 21, 23, and 25.

- A. 25
- B. 22
- C. 23
- D. 88

62. Calculate the mean of the data set 20, 22, 24, and 26.

- A. 26
- B. 24
- C. 23
- D. 92

63. Calculate the mean of the data set 21, 23, 25, and 27.

- A. 27
- B. 25
- C. 24
- D. 96

64. Calculate the mean of the data set 22, 24, 26, and 28.

- A. 28
- B. 26
- C. 100

D. 25

65. Read the sentence. After missing the final shot, Priya stayed late to practice the same move again. Which inference is best supported?

- A. Priya wants to quit the team.
- B. Priya is persistent.
- C. Priya blames the coach.
- D. Priya has forgotten the game.

66. Read the sentence. A single porch light glowed across the silent street after midnight. Which inference is best supported?

- A. The setting feels still and isolated.
- B. The street is busy and festive.
- C. Morning has already arrived.
- D. The houses are being repaired.

67. Read the sentence. Caleb placed the unopened letter in his desk drawer and returned to his homework. Which inference is best supported?

- A. Caleb has read the letter carefully.
- B. Caleb may be avoiding difficult news.
- C. Caleb is celebrating a surprise.
- D. Caleb has mailed the letter.

68. Read the sentence. As the train pulled away, Lila watched the familiar platform shrink into the distance. Which inference is best supported?

- A. The details create a humorous mood.
- B. Lila is planning a party.

- C. The details create a thoughtful mood.
- D. The train has stopped moving.

69. Read the sentence. After missing the final shot, Priya stayed late to practice the same move again. Which inference is best supported?

- A. Priya wants to quit the team.
- B. Priya blames the coach.
- C. Priya has forgotten the game.
- D. Priya is persistent.

70. Read the sentence. A single porch light glowed across the silent street after midnight. Which inference is best supported?

- A. The setting feels still and isolated.
- B. The street is busy and festive.
- C. Morning has already arrived.
- D. The houses are being repaired.

71. Read the sentence. Caleb placed the unopened letter in his desk drawer and returned to his homework. Which inference is best supported?

- A. Caleb has read the letter carefully.
- B. Caleb is celebrating a surprise.
- C. Caleb may be avoiding difficult news.
- D. Caleb has mailed the letter.

72. Read the sentence. As the train pulled away, Lila watched the familiar platform shrink into the distance. Which inference is best supported?

- A. The details create a humorous mood.

- B. Lila is planning a party.
- C. The train has stopped moving.
- D. The details create a thoughtful mood.

73. Read the sentence. After missing the final shot, Priya stayed late to practice the same move again. Which inference is best supported?

- A. Priya is persistent.
- B. Priya wants to quit the team.
- C. Priya blames the coach.
- D. Priya has forgotten the game.

74. Read the sentence. A single porch light glowed across the silent street after midnight. Which inference is best supported?

- A. The street is busy and festive.
- B. The setting feels still and isolated.
- C. Morning has already arrived.
- D. The houses are being repaired.

75. Read the sentence. Caleb placed the unopened letter in his desk drawer and returned to his homework. Which inference is best supported?

- A. Caleb may be avoiding difficult news.
- B. Caleb has read the letter carefully.
- C. Caleb is celebrating a surprise.
- D. Caleb has mailed the letter.

76. Read the sentence. As the train pulled away, Lila watched the familiar platform shrink into the distance. Which inference is best supported?

- A. The details create a humorous mood.
- B. Lila is planning a party.
- C. The train has stopped moving.
- D. The details create a thoughtful mood.

77. Read the sentence. After missing the final shot, Priya stayed late to practice the same move again. Which inference is best supported?

- A. Priya wants to quit the team.
- B. Priya blames the coach.
- C. Priya is persistent.
- D. Priya has forgotten the game.

78. Read the sentence. A single porch light glowed across the silent street after midnight. Which inference is best supported?

- A. The street is busy and festive.
- B. The setting feels still and isolated.
- C. Morning has already arrived.
- D. The houses are being repaired.

79. Read the sentence. Caleb placed the unopened letter in his desk drawer and returned to his homework. Which inference is best supported?

- A. Caleb has read the letter carefully.
- B. Caleb is celebrating a surprise.
- C. Caleb may be avoiding difficult news.
- D. Caleb has mailed the letter.

80. Read the sentence. As the train pulled away, Lila watched the familiar platform shrink into the distance. Which inference is best supported?

- A. The details create a thoughtful mood.
- B. The details create a humorous mood.
- C. Lila is planning a party.
- D. The train has stopped moving.

81. Read the sentence. After missing the final shot, Priya stayed late to practice the same move again. Which inference is best supported?

- A. Priya wants to quit the team.
- B. Priya is persistent.
- C. Priya blames the coach.
- D. Priya has forgotten the game.

82. Read the sentence. A single porch light glowed across the silent street after midnight. Which inference is best supported?

- A. The street is busy and festive.
- B. Morning has already arrived.
- C. The houses are being repaired.
- D. The setting feels still and isolated.

83. Read the sentence. Caleb placed the unopened letter in his desk drawer and returned to his homework. Which inference is best supported?

- A. Caleb may be avoiding difficult news.
- B. Caleb has read the letter carefully.
- C. Caleb is celebrating a surprise.
- D. Caleb has mailed the letter.

84. Read the sentence. As the train pulled away, Lila watched the familiar platform shrink into the distance. Which inference is best supported?

- A. The details create a humorous mood.
- B. The details create a thoughtful mood.
- C. Lila is planning a party.
- D. The train has stopped moving.

85. Read the sentence. After missing the final shot, Priya stayed late to practice the same move again. Which inference is best supported?

- A. Priya wants to quit the team.
- B. Priya blames the coach.
- C. Priya is persistent.
- D. Priya has forgotten the game.

86. Read the statement. A district report found that shaded bus stops increased rider comfort during hot months. What is the main idea?

- A. Buses should stop running in summer.
- B. All riders avoid public transit.
- C. Shade makes buses travel faster.
- D. Shade can improve the waiting experience for riders.

87. Read the statement. Researchers compared two study groups. One used timed practice, while both groups used the same materials. What is the main idea?

- A. The materials differed between groups.
- B. The students were never tested.
- C. Practice timing was the factor being compared.
- D. Timing cannot affect practice.

88. Read the statement. A community center opened Saturday hours after residents said weekday schedules prevented attendance. What is the main idea?

- A. Weekend hours address a scheduling barrier.
- B. Weekday programs will end immediately.
- C. Residents dislike the community center.
- D. The center will close permanently.

89. Read the statement. A guide notes that repairing small leaks promptly can reduce a household's water waste over time. What is the main idea?

- A. Leaks improve water quality.
- B. Early repairs can conserve water.
- C. Every repair requires replacing pipes.
- D. Water use never changes after repairs.

90. Read the statement. A district report found that shaded bus stops increased rider comfort during hot months. What is the main idea?

- A. Buses should stop running in summer.
- B. All riders avoid public transit.
- C. Shade makes buses travel faster.
- D. Shade can improve the waiting experience for riders.

91. Read the statement. Researchers compared two study groups. One used timed practice, while both groups used the same materials. What is the main idea?

- A. The materials differed between groups.
- B. The students were never tested.
- C. Timing cannot affect practice.
- D. Practice timing was the factor being compared.

92. Read the statement. A community center opened Saturday hours after residents said weekday schedules prevented attendance. What is the main idea?

- A. Weekday programs will end immediately.
- B. Residents dislike the community center.
- C. Weekend hours address a scheduling barrier.
- D. The center will close permanently.

93. Read the statement. A guide notes that repairing small leaks promptly can reduce a household's water waste over time. What is the main idea?

- A. Early repairs can conserve water.
- B. Leaks improve water quality.
- C. Every repair requires replacing pipes.
- D. Water use never changes after repairs.

94. Read the statement. A district report found that shaded bus stops increased rider comfort during hot months. What is the main idea?

- A. Buses should stop running in summer.
- B. Shade can improve the waiting experience for riders.
- C. All riders avoid public transit.
- D. Shade makes buses travel faster.

95. Read the statement. Researchers compared two study groups. One used timed practice, while both groups used the same materials. What is the main idea?

- A. Practice timing was the factor being compared.
- B. The materials differed between groups.
- C. The students were never tested.
- D. Timing cannot affect practice.

96. Read the statement. A community center opened Saturday hours after residents said weekday schedules prevented attendance. What is the main idea?

- A. Weekday programs will end immediately.
- B. Residents dislike the community center.
- C. The center will close permanently.
- D. Weekend hours address a scheduling barrier.

97. Read the statement. A guide notes that repairing small leaks promptly can reduce a household's water waste over time. What is the main idea?

- A. Leaks improve water quality.
- B. Every repair requires replacing pipes.
- C. Early repairs can conserve water.
- D. Water use never changes after repairs.

98. Read the statement. A district report found that shaded bus stops increased rider comfort during hot months. What is the main idea?

- A. Buses should stop running in summer.
- B. Shade can improve the waiting experience for riders.
- C. All riders avoid public transit.
- D. Shade makes buses travel faster.

99. Read the statement. Researchers compared two study groups. One used timed practice, while both groups used the same materials. What is the main idea?

- A. The materials differed between groups.
- B. The students were never tested.
- C. Practice timing was the factor being compared.
- D. Timing cannot affect practice.

100. Read the statement. A community center opened Saturday hours after residents said weekday schedules prevented attendance. What is the main idea?

- A. Weekday programs will end immediately.
- B. Residents dislike the community center.
- C. The center will close permanently.
- D. Weekend hours address a scheduling barrier.

101. Read the statement. A guide notes that repairing small leaks promptly can reduce a household's water waste over time. What is the main idea?

- A. Early repairs can conserve water.
- B. Leaks improve water quality.
- C. Every repair requires replacing pipes.
- D. Water use never changes after repairs.

102. Read the statement. A district report found that shaded bus stops increased rider comfort during hot months. What is the main idea?

- A. Buses should stop running in summer.
- B. Shade can improve the waiting experience for riders.
- C. All riders avoid public transit.
- D. Shade makes buses travel faster.

103. Read the statement. Researchers compared two study groups. One used timed practice, while both groups used the same materials. What is the main idea?

- A. The materials differed between groups.
- B. The students were never tested.
- C. Timing cannot affect practice.
- D. Practice timing was the factor being compared.

104. Read the statement. A community center opened Saturday hours after residents said weekday schedules prevented attendance. What is the main idea?

- A. Weekday programs will end immediately.
- B. Weekend hours address a scheduling barrier.
- C. Residents dislike the community center.
- D. The center will close permanently.

105. Read the statement. A guide notes that repairing small leaks promptly can reduce a household's water waste over time. What is the main idea?

- A. Early repairs can conserve water.
- B. Leaks improve water quality.
- C. Every repair requires replacing pipes.
- D. Water use never changes after repairs.

106. Read the statement. A district report found that shaded bus stops increased rider comfort during hot months. What is the main idea?

- A. Buses should stop running in summer.
- B. All riders avoid public transit.
- C. Shade can improve the waiting experience for riders.
- D. Shade makes buses travel faster.

107. A student is revising a paragraph. The student center offers a quiet room. Students can reserve it for group projects and tutoring. Which revision best combines the ideas clearly and precisely?

- A. The student center's quiet room supports group projects and tutoring by offering students a reservable workspace.
- B. The student center has a room that is useful for students in many different situations.
- C. Students can use rooms, and group projects sometimes need quiet places to work.
- D. The room exists at the center, and tutoring is an academic activity.

108. A student is revising a paragraph. The recreation office created a gear-rental program. Students can check out helmets, tennis rackets, and yoga mats. Which revision best combines the ideas clearly and precisely?

- A. The recreation office has items that students may use during different campus activities.
- B. Students borrow equipment from the office, which is one of several campus services.
- C. The program includes many items, although visitors may not understand its exact purpose.
- D. The gear-rental program lets students borrow recreation equipment such as helmets, rackets, and yoga mats.

109. A student is revising a paragraph. The peer-mentoring program needs sign-ups. A short video can explain the benefits to new students. Which revision best combines the ideas clearly and precisely?

- A. Sign-ups are needed because programs work when students participate during the year.
- B. Videos reach students because many students watch short content on phones each day.
- C. To increase sign-ups, the peer-mentoring program should share a short video explaining its benefits to new students.
- D. The program has a challenge that may require more planning and discussion among student leaders.

110. A student is revising a paragraph. The history club will host an archive night. Visitors can examine maps, letters, and photographs. Which revision best combines the ideas clearly and precisely?

- A. The club will host an event that is related to history and old materials.
- B. At archive night, the history club will invite visitors to examine maps, letters, and photographs.
- C. Visitors and historical items will be involved in the event somehow.
- D. Archives contain old things, as people generally understand.

111. A student is revising a paragraph. The student center offers a quiet room. Students can reserve it for group projects and tutoring. Which revision best combines the ideas clearly and precisely?

- A. The student center's quiet room supports group projects and tutoring by offering students a reservable workspace.

- B. The student center has a room that is useful for students in many different situations.
- C. Students can use rooms, and group projects sometimes need quiet places to work.
- D. The room exists at the center, and tutoring is an academic activity.

112. A student is revising a paragraph. The recreation office created a gear-rental program. Students can check out helmets, tennis rackets, and yoga mats. Which revision best combines the ideas clearly and precisely?

- A. The recreation office has items that students may use during different campus activities.
- B. The gear-rental program lets students borrow recreation equipment such as helmets, rackets, and yoga mats.
- C. Students borrow equipment from the office, which is one of several campus services.
- D. The program includes many items, although visitors may not understand its exact purpose.

113. A student is revising a paragraph. The peer-mentoring program needs sign-ups. A short video can explain the benefits to new students. Which revision best combines the ideas clearly and precisely?

- A. Sign-ups are needed because programs work when students participate during the year.
- B. Videos reach students because many students watch short content on phones each day.
- C. The program has a challenge that may require more planning and discussion among student leaders.
- D. To increase sign-ups, the peer-mentoring program should share a short video explaining its benefits to new students.

114. A student is revising a paragraph. The history club will host an archive night. Visitors can examine maps, letters, and photographs. Which revision best combines the ideas clearly and precisely?

- A. The club will host an event that is related to history and old materials.
- B. Visitors and historical items will be involved in the event somehow.
- C. At archive night, the history club will invite visitors to examine maps, letters, and photographs.
- D. Archives contain old things, as people generally understand.

115. A student is revising a paragraph. The student center offers a quiet room. Students can reserve it for group projects and tutoring. Which revision best combines the ideas clearly and precisely?

- A. The student center's quiet room supports group projects and tutoring by offering students a reservable workspace.
- B. The student center has a room that is useful for students in many different situations.
- C. Students can use rooms, and group projects sometimes need quiet places to work.
- D. The room exists at the center, and tutoring is an academic activity.

116. A student is revising a paragraph. The recreation office created a gear-rental program. Students can check out helmets, tennis rackets, and yoga mats. Which revision best combines the ideas clearly and precisely?

- A. The recreation office has items that students may use during different campus activities.
- B. The gear-rental program lets students borrow recreation equipment such as helmets, rackets, and yoga mats.
- C. Students borrow equipment from the office, which is one of several campus services.
- D. The program includes many items, although visitors may not understand its exact purpose.

117. A student is revising a paragraph. The peer-mentoring program needs sign-ups. A short video can explain the benefits to new students. Which revision best combines the ideas clearly and precisely?

- A. Sign-ups are needed because programs work when students participate during the year.
- B. Videos reach students because many students watch short content on phones each day.
- C. To increase sign-ups, the peer-mentoring program should share a short video explaining its benefits to new students.
- D. The program has a challenge that may require more planning and discussion among student leaders.

118. A student is revising a paragraph. The history club will host an archive night. Visitors can examine maps, letters, and photographs. Which revision best combines the ideas clearly and precisely?

- A. The club will host an event that is related to history and old materials.

- B. Visitors and historical items will be involved in the event somehow.
- C. Archives contain old things, as people generally understand.
- D. At archive night, the history club will invite visitors to examine maps, letters, and photographs.

119. A student is revising a paragraph. The student center offers a quiet room. Students can reserve it for group projects and tutoring. Which revision best combines the ideas clearly and precisely?

- A. The student center has a room that is useful for students in many different situations.
- B. The student center's quiet room supports group projects and tutoring by offering students a reservable workspace.
- C. Students can use rooms, and group projects sometimes need quiet places to work.
- D. The room exists at the center, and tutoring is an academic activity.

120. A student is revising a paragraph. The recreation office created a gear-rental program. Students can check out helmets, tennis rackets, and yoga mats. Which revision best combines the ideas clearly and precisely?

- A. The gear-rental program lets students borrow recreation equipment such as helmets, rackets, and yoga mats.
- B. The recreation office has items that students may use during different campus activities.
- C. Students borrow equipment from the office, which is one of several campus services.
- D. The program includes many items, although visitors may not understand its exact purpose.

121. A student is revising a paragraph. The peer-mentoring program needs sign-ups. A short video can explain the benefits to new students. Which revision best combines the ideas clearly and precisely?

- A. Sign-ups are needed because programs work when students participate during the year.
- B. Videos reach students because many students watch short content on phones each day.
- C. The program has a challenge that may require more planning and discussion among student leaders.
- D. To increase sign-ups, the peer-mentoring program should share a short video explaining its benefits to new students.

122. A student is revising a paragraph. The history club will host an archive night. Visitors can examine maps, letters, and photographs. Which revision best combines the ideas clearly and precisely?

- A. The club will host an event that is related to history and old materials.
- B. Visitors and historical items will be involved in the event somehow.
- C. At archive night, the history club will invite visitors to examine maps, letters, and photographs.
- D. Archives contain old things, as people generally understand.

123. A student is revising a paragraph. The student center offers a quiet room. Students can reserve it for group projects and tutoring. Which revision best combines the ideas clearly and precisely?

- A. The student center has a room that is useful for students in many different situations.
- B. The student center's quiet room supports group projects and tutoring by offering students a reservable workspace.
- C. Students can use rooms, and group projects sometimes need quiet places to work.
- D. The room exists at the center, and tutoring is an academic activity.

124. A student is revising a paragraph. The recreation office created a gear-rental program. Students can check out helmets, tennis rackets, and yoga mats. Which revision best combines the ideas clearly and precisely?

- A. The recreation office has items that students may use during different campus activities.
- B. Students borrow equipment from the office, which is one of several campus services.
- C. The gear-rental program lets students borrow recreation equipment such as helmets, rackets, and yoga mats.
- D. The program includes many items, although visitors may not understand its exact purpose.

125. A student is revising a paragraph. The peer-mentoring program needs sign-ups. A short video can explain the benefits to new students. Which revision best combines the ideas clearly and precisely?

- A. Sign-ups are needed because programs work when students participate during the year.
- B. Videos reach students because many students watch short content on phones each day.

- C. The program has a challenge that may require more planning and discussion among student leaders.
- D. To increase sign-ups, the peer-mentoring program should share a short video explaining its benefits to new students.

126. A student is revising a paragraph. The history club will host an archive night. Visitors can examine maps, letters, and photographs. Which revision best combines the ideas clearly and precisely?

- A. At archive night, the history club will invite visitors to examine maps, letters, and photographs.
- B. The club will host an event that is related to history and old materials.
- C. Visitors and historical items will be involved in the event somehow.
- D. Archives contain old things, as people generally understand.

127. Which sentence is punctuated correctly?

- A. After the lecture the students, asked questions.
- B. After, the lecture the students asked questions.
- C. After the lecture the, students asked questions.
- D. After the lecture, the students asked questions.

128. Which sentence uses subject-verb agreement correctly?

- A. The list of supplies are on the desk.
- B. The list of supplies is on the desk.
- C. The supplies list on the desk.
- D. The list of supplies be on the desk.

129. Which sentence uses a pronoun clearly?

- A. When Maya met Tessa, she handed her the folder.
- B. When Maya met Tessa, they handed it the folder.
- C. When Maya met Tessa, Maya handed Tessa the folder.

D. When Maya met Tessa, the folder handed her.

130. Which sentence uses parallel structure correctly?

- A. The internship requires arriving on time, taking notes, and asking questions.
- B. The internship requires to arrive on time, notes, and asking questions.
- C. The internship requires arriving on time, to take notes, and questions.
- D. The internship requires arrival on time, taking notes, and to ask questions.

131. Which sentence is punctuated correctly?

- A. After the lecture the students, asked questions.
- B. After, the lecture the students asked questions.
- C. After the lecture the, students asked questions.
- D. After the lecture, the students asked questions.

132. Which sentence uses subject-verb agreement correctly?

- A. The list of supplies is on the desk.
- B. The list of supplies are on the desk.
- C. The supplies list on the desk.
- D. The list of supplies be on the desk.

133. Which sentence uses a pronoun clearly?

- A. When Maya met Tessa, she handed her the folder.
- B. When Maya met Tessa, they handed it the folder.
- C. When Maya met Tessa, Maya handed Tessa the folder.
- D. When Maya met Tessa, the folder handed her.

134. Which sentence uses parallel structure correctly?

- A. The internship requires to arrive on time, notes, and asking questions.
- B. The internship requires arriving on time, taking notes, and asking questions.
- C. The internship requires arriving on time, to take notes, and questions.
- D. The internship requires arrival on time, taking notes, and to ask questions.

135. Which sentence is punctuated correctly?

- A. After the lecture the students, asked questions.
- B. After the lecture, the students asked questions.
- C. After, the lecture the students asked questions.
- D. After the lecture the, students asked questions.

136. Which sentence uses subject-verb agreement correctly?

- A. The list of supplies is on the desk.
- B. The list of supplies are on the desk.
- C. The supplies list on the desk.
- D. The list of supplies be on the desk.

137. Which sentence uses a pronoun clearly?

- A. When Maya met Tessa, she handed her the folder.
- B. When Maya met Tessa, they handed it the folder.
- C. When Maya met Tessa, Maya handed Tessa the folder.
- D. When Maya met Tessa, the folder handed her.

138. Which sentence uses parallel structure correctly?

- A. The internship requires to arrive on time, notes, and asking questions.
- B. The internship requires arriving on time, to take notes, and questions.
- C. The internship requires arrival on time, taking notes, and to ask questions.
- D. The internship requires arriving on time, taking notes, and asking questions.

139. Which sentence is punctuated correctly?

- A. After the lecture the students, asked questions.
- B. After, the lecture the students asked questions.
- C. After the lecture the, students asked questions.
- D. After the lecture, the students asked questions.

140. Which sentence uses subject-verb agreement correctly?

- A. The list of supplies are on the desk.
- B. The list of supplies is on the desk.
- C. The supplies list on the desk.
- D. The list of supplies be on the desk.

141. Which sentence uses a pronoun clearly?

- A. When Maya met Tessa, she handed her the folder.
- B. When Maya met Tessa, they handed it the folder.
- C. When Maya met Tessa, Maya handed Tessa the folder.
- D. When Maya met Tessa, the folder handed her.

142. Which sentence uses parallel structure correctly?

- A. The internship requires arriving on time, taking notes, and asking questions.
- B. The internship requires to arrive on time, notes, and asking questions.
- C. The internship requires arriving on time, to take notes, and questions.

D. The internship requires arrival on time, taking notes, and to ask questions.

143. Which sentence is punctuated correctly?

- A. After the lecture the students, asked questions.
- B. After the lecture, the students asked questions.
- C. After, the lecture the students asked questions.
- D. After the lecture the, students asked questions.

144. Which sentence uses subject-verb agreement correctly?

- A. The list of supplies are on the desk.
- B. The supplies list on the desk.
- C. The list of supplies is on the desk.
- D. The list of supplies be on the desk.

145. Which sentence uses a pronoun clearly?

- A. When Maya met Tessa, Maya handed Tessa the folder.
- B. When Maya met Tessa, she handed her the folder.
- C. When Maya met Tessa, they handed it the folder.
- D. When Maya met Tessa, the folder handed her.

146. Which sentence uses parallel structure correctly?

- A. The internship requires to arrive on time, notes, and asking questions.
- B. The internship requires arriving on time, to take notes, and questions.
- C. The internship requires arrival on time, taking notes, and to ask questions.
- D. The internship requires arriving on time, taking notes, and asking questions.

Practice Exam 12: Answer Key and Explanations

1. B — B is correct because the discount is 5% of 120, leaving 114. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

2. D — D is correct because the discount is 10% of 127, leaving 114.3. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

3. A — A is correct because the discount is 15% of 134, leaving 113.9. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

4. B — B is correct because the discount is 20% of 141, leaving 112.8. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

5. D — D is correct because the discount is 5% of 148, leaving 140.6. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

6. C — C is correct because the discount is 10% of 155, leaving 139.5. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

7. B — B is correct because the discount is 15% of 162, leaving 137.7. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

8. C — C is correct because the discount is 20% of 169, leaving 135.2. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

9. D — D is correct because the discount is 5% of 176, leaving 167.2. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the

answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

10. A — A is correct because the discount is 10% of 183, leaving 164.7. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

11. A — A is correct because the discount is 15% of 190, leaving 161.5. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

12. B — B is correct because the discount is 20% of 197, leaving 157.6. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

13. D — D is correct because the discount is 5% of 204, leaving 193.8. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

14. C — C is correct because the discount is 10% of 211, leaving 189.9. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

15. B — B is correct because the discount is 15% of 218, leaving 185.3. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

16. D — D is correct because the discount is 20% of 225, leaving 180. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

17. C — C is correct because adding 3 gives $2x = 10$, then division by 2 gives 5. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

18. A — A is correct because adding 3 gives $3x = 18$, then division by 3 gives 6. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported

reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

19. B — B is correct because adding 3 gives $4x = 28$, then division by 4 gives 7. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

20. C — C is correct because adding 3 gives $5x = 40$, then division by 5 gives 8. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

21. D — D is correct because adding 3 gives $2x = 18$, then division by 2 gives 9. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

22. A — A is correct because adding 3 gives $3x = 30$, then division by 3 gives 10. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

23. A — A is correct because adding 3 gives $4x = 44$, then division by 4 gives 11. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

24. C — C is correct because adding 3 gives $5x = 60$, then division by 5 gives 12. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

25. D — D is correct because adding 3 gives $2x = 26$, then division by 2 gives 13. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

26. B — B is correct because adding 3 gives $3x = 42$, then division by 3 gives 14. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

27. C — C is correct because adding 3 gives $4x = 60$, then division by 4 gives 15. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported

reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

28. A — A is correct because adding 3 gives $5x = 80$, then division by 5 gives 16. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

29. B — B is correct because adding 3 gives $2x = 34$, then division by 2 gives 17. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

30. D — D is correct because adding 3 gives $3x = 54$, then division by 3 gives 18. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

31. B — B is correct because adding 3 gives $4x = 76$, then division by 4 gives 19. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

32. C — C is correct because adding 3 gives $5x = 100$, then division by 5 gives 20. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

33. D — D is correct because area equals length times width, or 10 times 3, which is 30. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

34. A — A is correct because area equals length times width, or 11 times 4, which is 44. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

35. C — C is correct because area equals length times width, or 12 times 5, which is 60. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

36. A — A is correct because area equals length times width, or 13 times 6, which is 78. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported

reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

37. D — D is correct because area equals length times width, or 14 times 3, which is 42. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

38. B — B is correct because area equals length times width, or 15 times 4, which is 60. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

39. C — C is correct because area equals length times width, or 16 times 5, which is 80. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

40. B — B is correct because area equals length times width, or 17 times 6, which is 102. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

41. D — D is correct because area equals length times width, or 18 times 3, which is 54. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

42. A — A is correct because area equals length times width, or 19 times 4, which is 76. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

43. C — C is correct because area equals length times width, or 20 times 5, which is 100. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

44. A — A is correct because area equals length times width, or 21 times 6, which is 126. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

45. D — D is correct because area equals length times width, or 22 times 3, which is 66. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported

reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

46. B — B is correct because area equals length times width, or 23 times 4, which is 92. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

47. D — D is correct because area equals length times width, or 24 times 5, which is 120. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

48. B — B is correct because area equals length times width, or 25 times 6, which is 150. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

49. C — C is correct because the sum is 40 and dividing by four values gives 10. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

50. A — A is correct because the sum is 44 and dividing by four values gives 11. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

51. D — D is correct because the sum is 48 and dividing by four values gives 12. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

52. A — A is correct because the sum is 52 and dividing by four values gives 13. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

53. B — B is correct because the sum is 56 and dividing by four values gives 14. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

54. C — C is correct because the sum is 60 and dividing by four values gives 15. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported

reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

55. A — A is correct because the sum is 64 and dividing by four values gives 16. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

56. D — D is correct because the sum is 68 and dividing by four values gives 17. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

57. B — B is correct because the sum is 72 and dividing by four values gives 18. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

58. C — C is correct because the sum is 76 and dividing by four values gives 19. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

59. D — D is correct because the sum is 80 and dividing by four values gives 20. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

60. A — A is correct because the sum is 84 and dividing by four values gives 21. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

61. B — B is correct because the sum is 88 and dividing by four values gives 22. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

62. C — C is correct because the sum is 92 and dividing by four values gives 23. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

63. C — C is correct because the sum is 96 and dividing by four values gives 24. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported

reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

64. D — D is correct because the sum is 100 and dividing by four values gives 25. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

65. B — B is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

66. A — A is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

67. B — B is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

68. C — C is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

69. D — D is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

70. A — A is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

71. C — C is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

72. D — D is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition,

or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

73. A — A is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

74. B — B is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

75. A — A is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

76. D — D is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

77. C — C is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

78. B — B is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

79. C — C is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

80. A — A is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

81. B — B is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition,

or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

82. D — D is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

83. A — A is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

84. B — B is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

85. C — C is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

86. D — D is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

87. C — C is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

88. A — A is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

89. B — B is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

90. D — D is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or

add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

91. D — D is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

92. C — C is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

93. A — A is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

94. B — B is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

95. A — A is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

96. D — D is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

97. C — C is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

98. B — B is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

99. C — C is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or

add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

100. D — D is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

101. A — A is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

102. B — B is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

103. D — D is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

104. B — B is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

105. A — A is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

106. C — C is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

107. A — A is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

108. D — D is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a

detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

109. C — C is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

110. B — B is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

111. A — A is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

112. B — B is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

113. D — D is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

114. C — C is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

115. A — A is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

116. B — B is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

117. C — C is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a

detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

118. D — D is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

119. B — B is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

120. A — A is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

121. D — D is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

122. C — C is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

123. B — B is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

124. C — C is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

125. D — D is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

126. A — A is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a

detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

127. D — D is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

128. B — B is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

129. C — C is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

130. A — A is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

131. D — D is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

132. A — A is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

133. C — C is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

134. B — B is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

135. B — B is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail,

ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

136. A — A is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

137. C — C is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

138. D — D is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

139. D — D is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

140. B — B is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

141. C — C is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

142. A — A is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

143. B — B is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

144. C — C is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail,

ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

145. A — A is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

146. D — D is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.
