

PRACTICE EXAM 13: TSI QUICK STUDY GUIDE (146 QUESTIONS)

This mixed TSIA2 practice exam contains 146 multiple-choice questions. The official assessment is adaptive and untimed; use this review to practice Mathematics and English Language Arts and Reading skills. Choose the single best answer for each question, then check the answer key and explanations.

1. A laptop accessory priced at \$150 is discounted 10%. What is the sale price before tax?

- A. 15 dollars
- B. 135 dollars
- C. 165 dollars
- D. 138 dollars

2. A laptop accessory priced at \$159 is discounted 15%. What is the sale price before tax?

- A. 135.15 dollars
- B. 23.85 dollars
- C. 182.85 dollars
- D. 142 dollars

3. A laptop accessory priced at \$168 is discounted 20%. What is the sale price before tax?

- A. 134.4 dollars
- B. 33.6 dollars
- C. 201.6 dollars
- D. 146 dollars

4. A laptop accessory priced at \$177 is discounted 25%. What is the sale price before tax?

- A. 44.25 dollars
- B. 132.75 dollars
- C. 221.25 dollars
- D. 150 dollars

5. A laptop accessory priced at \$186 is discounted 10%. What is the sale price before tax?

- A. 18.6 dollars
- B. 204.6 dollars
- C. 167.4 dollars
- D. 174 dollars

6. A laptop accessory priced at \$195 is discounted 15%. What is the sale price before tax?

- A. 29.25 dollars
- B. 224.25 dollars
- C. 178 dollars
- D. 165.75 dollars

7. A laptop accessory priced at \$204 is discounted 20%. What is the sale price before tax?

- A. 163.2 dollars
- B. 40.8 dollars
- C. 244.8 dollars
- D. 182 dollars

8. A laptop accessory priced at \$213 is discounted 25%. What is the sale price before tax?

- A. 53.25 dollars
- B. 266.25 dollars
- C. 159.75 dollars
- D. 186 dollars

9. A laptop accessory priced at \$222 is discounted 10%. What is the sale price before tax?

- A. 22.2 dollars
- B. 199.8 dollars
- C. 244.2 dollars
- D. 210 dollars

10. A laptop accessory priced at \$231 is discounted 15%. What is the sale price before tax?

- A. 34.65 dollars
- B. 265.65 dollars
- C. 214 dollars
- D. 196.35 dollars

11. A laptop accessory priced at \$240 is discounted 20%. What is the sale price before tax?

- A. 48 dollars
- B. 192 dollars
- C. 288 dollars
- D. 218 dollars

12. A laptop accessory priced at \$249 is discounted 25%. What is the sale price before tax?

- A. 62.25 dollars
- B. 311.25 dollars
- C. 222 dollars

D. 186.75 dollars

13. A laptop accessory priced at \$258 is discounted 10%. What is the sale price before tax?

- A. 25.8 dollars
- B. 283.8 dollars
- C. 232.2 dollars
- D. 246 dollars

14. A laptop accessory priced at \$267 is discounted 15%. What is the sale price before tax?

- A. 226.95 dollars
- B. 40.05 dollars
- C. 307.05 dollars
- D. 250 dollars

15. A laptop accessory priced at \$276 is discounted 20%. What is the sale price before tax?

- A. 55.2 dollars
- B. 331.2 dollars
- C. 254 dollars
- D. 220.8 dollars

16. A laptop accessory priced at \$285 is discounted 25%. What is the sale price before tax?

- A. 71.25 dollars
- B. 356.25 dollars
- C. 213.75 dollars
- D. 258 dollars

17. Find the value of x : $2x - 3 = 11$.

- A. 4
- B. 7
- C. 28
- D. 16

18. Find the value of x : $3x - 3 = 21$.

- A. 8
- B. 6
- C. 72
- D. 27

19. Find the value of x : $4x - 3 = 33$.

- A. 7.5
- B. 144
- C. 9
- D. 40

20. Find the value of x : $5x - 3 = 47$.

- A. 10
- B. 8.8
- C. 250
- D. 55

21. Find the value of x : $2x - 3 = 19$.

- A. 8
- B. 11
- C. 44
- D. 24

22. Find the value of x : $3x - 3 = 33$.

- A. 10
- B. 108
- C. 39
- D. 12

23. Find the value of x : $4x - 3 = 49$.

- A. 11.5
- B. 13
- C. 208
- D. 56

24. Find the value of x : $5x - 3 = 67$.

- A. 12.8
- B. 350
- C. 14
- D. 75

25. Find the value of x : $2x - 3 = 27$.

- A. 12
- B. 60
- C. 32

D. 15

26. Find the value of x : $3x - 3 = 45$.

A. 16

B. 14

C. 144

D. 51

27. Find the value of x : $4x - 3 = 65$.

A. 15.5

B. 17

C. 272

D. 72

28. Find the value of x : $5x - 3 = 87$.

A. 18

B. 16.8

C. 450

D. 95

29. Find the value of x : $2x - 3 = 35$.

A. 16

B. 76

C. 40

D. 19

30. Find the value of x : $3x - 3 = 57$.

- A. 18
- B. 180
- C. 20
- D. 63

31. Find the value of x : $4x - 3 = 81$.

- A. 19.5
- B. 336
- C. 88
- D. 21

32. Find the value of x : $5x - 3 = 107$.

- A. 22
- B. 20.8
- C. 550
- D. 115

33. A rectangular exhibit is 14 meters long and 5 meters wide. What is its area?

- A. 38 square meters
- B. 70 square meters
- C. 19 square meters
- D. 33 square meters

34. A rectangular exhibit is 15 meters long and 6 meters wide. What is its area?

- A. 42 square meters
- B. 21 square meters
- C. 90 square meters
- D. 36 square meters

35. A rectangular exhibit is 16 meters long and 7 meters wide. What is its area?

- A. 46 square meters
- B. 23 square meters
- C. 39 square meters
- D. 112 square meters

36. A rectangular exhibit is 17 meters long and 8 meters wide. What is its area?

- A. 50 square meters
- B. 25 square meters
- C. 136 square meters
- D. 42 square meters

37. A rectangular exhibit is 18 meters long and 5 meters wide. What is its area?

- A. 46 square meters
- B. 90 square meters
- C. 23 square meters
- D. 41 square meters

38. A rectangular exhibit is 19 meters long and 6 meters wide. What is its area?

- A. 114 square meters
- B. 50 square meters
- C. 25 square meters

D. 44 square meters

39. A rectangular exhibit is 20 meters long and 7 meters wide. What is its area?

- A. 54 square meters
- B. 27 square meters
- C. 140 square meters
- D. 47 square meters

40. A rectangular exhibit is 21 meters long and 8 meters wide. What is its area?

- A. 58 square meters
- B. 168 square meters
- C. 29 square meters
- D. 50 square meters

41. A rectangular exhibit is 22 meters long and 5 meters wide. What is its area?

- A. 110 square meters
- B. 54 square meters
- C. 27 square meters
- D. 49 square meters

42. A rectangular exhibit is 23 meters long and 6 meters wide. What is its area?

- A. 58 square meters
- B. 29 square meters
- C. 52 square meters
- D. 138 square meters

43. A rectangular exhibit is 24 meters long and 7 meters wide. What is its area?

- A. 62 square meters
- B. 168 square meters
- C. 31 square meters
- D. 55 square meters

44. A rectangular exhibit is 25 meters long and 8 meters wide. What is its area?

- A. 66 square meters
- B. 33 square meters
- C. 200 square meters
- D. 58 square meters

45. A rectangular exhibit is 26 meters long and 5 meters wide. What is its area?

- A. 130 square meters
- B. 62 square meters
- C. 31 square meters
- D. 57 square meters

46. A rectangular exhibit is 27 meters long and 6 meters wide. What is its area?

- A. 66 square meters
- B. 33 square meters
- C. 60 square meters
- D. 162 square meters

47. A rectangular exhibit is 28 meters long and 7 meters wide. What is its area?

- A. 70 square meters
- B. 196 square meters
- C. 35 square meters
- D. 63 square meters

48. A rectangular exhibit is 29 meters long and 8 meters wide. What is its area?

- A. 232 square meters
- B. 74 square meters
- C. 37 square meters
- D. 66 square meters

49. Calculate the mean of the data set 10, 12, 14, and 16.

- A. 16
- B. 14
- C. 52
- D. 13

50. Calculate the mean of the data set 11, 13, 15, and 17.

- A. 17
- B. 15
- C. 14
- D. 56

51. Calculate the mean of the data set 12, 14, 16, and 18.

- A. 18
- B. 16
- C. 60

D. 15

52. Calculate the mean of the data set 13, 15, 17, and 19.

A. 16

B. 19

C. 17

D. 64

53. Calculate the mean of the data set 14, 16, 18, and 20.

A. 20

B. 17

C. 18

D. 68

54. Calculate the mean of the data set 15, 17, 19, and 21.

A. 21

B. 19

C. 18

D. 72

55. Calculate the mean of the data set 16, 18, 20, and 22.

A. 19

B. 22

C. 20

D. 76

56. Calculate the mean of the data set 17, 19, 21, and 23.

- A. 23
- B. 20
- C. 21
- D. 80

57. Calculate the mean of the data set 18, 20, 22, and 24.

- A. 24
- B. 22
- C. 21
- D. 84

58. Calculate the mean of the data set 19, 21, 23, and 25.

- A. 25
- B. 23
- C. 88
- D. 22

59. Calculate the mean of the data set 20, 22, 24, and 26.

- A. 23
- B. 26
- C. 24
- D. 92

60. Calculate the mean of the data set 21, 23, 25, and 27.

- A. 27
- B. 25
- C. 96
- D. 24

61. Calculate the mean of the data set 22, 24, 26, and 28.

- A. 28
- B. 26
- C. 25
- D. 100

62. Calculate the mean of the data set 23, 25, 27, and 29.

- A. 29
- B. 26
- C. 27
- D. 104

63. Calculate the mean of the data set 24, 26, 28, and 30.

- A. 30
- B. 28
- C. 108
- D. 27

64. Calculate the mean of the data set 25, 27, 29, and 31.

- A. 31
- B. 29
- C. 28

65. Read the sentence. After missing the final shot, Priya stayed late to practice the same move again. Which inference is best supported?

- A. Priya wants to quit the team.
- B. Priya is persistent.
- C. Priya blames the coach.
- D. Priya has forgotten the game.

66. Read the sentence. A single porch light glowed across the silent street after midnight. Which inference is best supported?

- A. The setting feels still and isolated.
- B. The street is busy and festive.
- C. Morning has already arrived.
- D. The houses are being repaired.

67. Read the sentence. Caleb placed the unopened letter in his desk drawer and returned to his homework. Which inference is best supported?

- A. Caleb has read the letter carefully.
- B. Caleb is celebrating a surprise.
- C. Caleb has mailed the letter.
- D. Caleb may be avoiding difficult news.

68. Read the sentence. As the train pulled away, Lila watched the familiar platform shrink into the distance. Which inference is best supported?

- A. The details create a humorous mood.
- B. Lila is planning a party.

- C. The details create a thoughtful mood.
- D. The train has stopped moving.

69. Read the sentence. After missing the final shot, Priya stayed late to practice the same move again. Which inference is best supported?

- A. Priya is persistent.
- B. Priya wants to quit the team.
- C. Priya blames the coach.
- D. Priya has forgotten the game.

70. Read the sentence. A single porch light glowed across the silent street after midnight. Which inference is best supported?

- A. The street is busy and festive.
- B. The setting feels still and isolated.
- C. Morning has already arrived.
- D. The houses are being repaired.

71. Read the sentence. Caleb placed the unopened letter in his desk drawer and returned to his homework. Which inference is best supported?

- A. Caleb has read the letter carefully.
- B. Caleb may be avoiding difficult news.
- C. Caleb is celebrating a surprise.
- D. Caleb has mailed the letter.

72. Read the sentence. As the train pulled away, Lila watched the familiar platform shrink into the distance. Which inference is best supported?

- A. The details create a humorous mood.

- B. Lila is planning a party.
- C. The train has stopped moving.
- D. The details create a thoughtful mood.

73. Read the sentence. After missing the final shot, Priya stayed late to practice the same move again. Which inference is best supported?

- A. Priya wants to quit the team.
- B. Priya blames the coach.
- C. Priya is persistent.
- D. Priya has forgotten the game.

74. Read the sentence. A single porch light glowed across the silent street after midnight. Which inference is best supported?

- A. The setting feels still and isolated.
- B. The street is busy and festive.
- C. Morning has already arrived.
- D. The houses are being repaired.

75. Read the sentence. Caleb placed the unopened letter in his desk drawer and returned to his homework. Which inference is best supported?

- A. Caleb may be avoiding difficult news.
- B. Caleb has read the letter carefully.
- C. Caleb is celebrating a surprise.
- D. Caleb has mailed the letter.

76. Read the sentence. As the train pulled away, Lila watched the familiar platform shrink into the distance. Which inference is best supported?

- A. The details create a humorous mood.
- B. The details create a thoughtful mood.
- C. Lila is planning a party.
- D. The train has stopped moving.

77. Read the sentence. After missing the final shot, Priya stayed late to practice the same move again. Which inference is best supported?

- A. Priya wants to quit the team.
- B. Priya blames the coach.
- C. Priya has forgotten the game.
- D. Priya is persistent.

78. Read the sentence. A single porch light glowed across the silent street after midnight. Which inference is best supported?

- A. The street is busy and festive.
- B. Morning has already arrived.
- C. The setting feels still and isolated.
- D. The houses are being repaired.

79. Read the sentence. Caleb placed the unopened letter in his desk drawer and returned to his homework. Which inference is best supported?

- A. Caleb may be avoiding difficult news.
- B. Caleb has read the letter carefully.
- C. Caleb is celebrating a surprise.
- D. Caleb has mailed the letter.

80. Read the sentence. As the train pulled away, Lila watched the familiar platform shrink into the distance. Which inference is best supported?

- A. The details create a humorous mood.
- B. Lila is planning a party.
- C. The details create a thoughtful mood.
- D. The train has stopped moving.

81. Read the sentence. After missing the final shot, Priya stayed late to practice the same move again. Which inference is best supported?

- A. Priya wants to quit the team.
- B. Priya is persistent.
- C. Priya blames the coach.
- D. Priya has forgotten the game.

82. Read the sentence. A single porch light glowed across the silent street after midnight. Which inference is best supported?

- A. The street is busy and festive.
- B. Morning has already arrived.
- C. The houses are being repaired.
- D. The setting feels still and isolated.

83. Read the sentence. Caleb placed the unopened letter in his desk drawer and returned to his homework. Which inference is best supported?

- A. Caleb has read the letter carefully.
- B. Caleb may be avoiding difficult news.
- C. Caleb is celebrating a surprise.
- D. Caleb has mailed the letter.

84. Read the sentence. As the train pulled away, Lila watched the familiar platform shrink into the distance. Which inference is best supported?

- A. The details create a thoughtful mood.
- B. The details create a humorous mood.
- C. Lila is planning a party.
- D. The train has stopped moving.

85. Read the sentence. After missing the final shot, Priya stayed late to practice the same move again. Which inference is best supported?

- A. Priya wants to quit the team.
- B. Priya blames the coach.
- C. Priya is persistent.
- D. Priya has forgotten the game.

86. Read the statement. A district report found that shaded bus stops increased rider comfort during hot months. What is the main idea?

- A. Buses should stop running in summer.
- B. All riders avoid public transit.
- C. Shade makes buses travel faster.
- D. Shade can improve the waiting experience for riders.

87. Read the statement. Researchers compared two study groups. One used timed practice, while both groups used the same materials. What is the main idea?

- A. The materials differed between groups.
- B. The students were never tested.
- C. Timing cannot affect practice.
- D. Practice timing was the factor being compared.

88. Read the statement. A community center opened Saturday hours after residents said weekday schedules prevented attendance. What is the main idea?

- A. Weekday programs will end immediately.
- B. Weekend hours address a scheduling barrier.
- C. Residents dislike the community center.
- D. The center will close permanently.

89. Read the statement. A guide notes that repairing small leaks promptly can reduce a household's water waste over time. What is the main idea?

- A. Leaks improve water quality.
- B. Every repair requires replacing pipes.
- C. Early repairs can conserve water.
- D. Water use never changes after repairs.

90. Read the statement. A district report found that shaded bus stops increased rider comfort during hot months. What is the main idea?

- A. Shade can improve the waiting experience for riders.
- B. Buses should stop running in summer.
- C. All riders avoid public transit.
- D. Shade makes buses travel faster.

91. Read the statement. Researchers compared two study groups. One used timed practice, while both groups used the same materials. What is the main idea?

- A. The materials differed between groups.
- B. Practice timing was the factor being compared.
- C. The students were never tested.
- D. Timing cannot affect practice.

92. Read the statement. A community center opened Saturday hours after residents said weekday schedules prevented attendance. What is the main idea?

- A. Weekday programs will end immediately.
- B. Residents dislike the community center.
- C. The center will close permanently.
- D. Weekend hours address a scheduling barrier.

93. Read the statement. A guide notes that repairing small leaks promptly can reduce a household's water waste over time. What is the main idea?

- A. Early repairs can conserve water.
- B. Leaks improve water quality.
- C. Every repair requires replacing pipes.
- D. Water use never changes after repairs.

94. Read the statement. A district report found that shaded bus stops increased rider comfort during hot months. What is the main idea?

- A. Buses should stop running in summer.
- B. All riders avoid public transit.
- C. Shade can improve the waiting experience for riders.
- D. Shade makes buses travel faster.

95. Read the statement. Researchers compared two study groups. One used timed practice, while both groups used the same materials. What is the main idea?

- A. The materials differed between groups.
- B. Practice timing was the factor being compared.
- C. The students were never tested.
- D. Timing cannot affect practice.

96. Read the statement. A community center opened Saturday hours after residents said weekday schedules prevented attendance. What is the main idea?

- A. Weekend hours address a scheduling barrier.
- B. Weekday programs will end immediately.
- C. Residents dislike the community center.
- D. The center will close permanently.

97. Read the statement. A guide notes that repairing small leaks promptly can reduce a household's water waste over time. What is the main idea?

- A. Leaks improve water quality.
- B. Every repair requires replacing pipes.
- C. Early repairs can conserve water.
- D. Water use never changes after repairs.

98. Read the statement. A district report found that shaded bus stops increased rider comfort during hot months. What is the main idea?

- A. Buses should stop running in summer.
- B. All riders avoid public transit.
- C. Shade makes buses travel faster.
- D. Shade can improve the waiting experience for riders.

99. Read the statement. Researchers compared two study groups. One used timed practice, while both groups used the same materials. What is the main idea?

- A. The materials differed between groups.
- B. The students were never tested.
- C. Timing cannot affect practice.
- D. Practice timing was the factor being compared.

100. Read the statement. A community center opened Saturday hours after residents said weekday schedules prevented attendance. What is the main idea?

- A. Weekday programs will end immediately.
- B. Residents dislike the community center.
- C. Weekend hours address a scheduling barrier.
- D. The center will close permanently.

101. Read the statement. A guide notes that repairing small leaks promptly can reduce a household's water waste over time. What is the main idea?

- A. Leaks improve water quality.
- B. Early repairs can conserve water.
- C. Every repair requires replacing pipes.
- D. Water use never changes after repairs.

102. Read the statement. A district report found that shaded bus stops increased rider comfort during hot months. What is the main idea?

- A. Shade can improve the waiting experience for riders.
- B. Buses should stop running in summer.
- C. All riders avoid public transit.
- D. Shade makes buses travel faster.

103. Read the statement. Researchers compared two study groups. One used timed practice, while both groups used the same materials. What is the main idea?

- A. The materials differed between groups.
- B. The students were never tested.
- C. Timing cannot affect practice.
- D. Practice timing was the factor being compared.

104. Read the statement. A community center opened Saturday hours after residents said weekday schedules prevented attendance. What is the main idea?

- A. Weekend hours address a scheduling barrier.
- B. Weekday programs will end immediately.
- C. Residents dislike the community center.
- D. The center will close permanently.

105. Read the statement. A guide notes that repairing small leaks promptly can reduce a household's water waste over time. What is the main idea?

- A. Leaks improve water quality.
- B. Early repairs can conserve water.
- C. Every repair requires replacing pipes.
- D. Water use never changes after repairs.

106. Read the statement. A district report found that shaded bus stops increased rider comfort during hot months. What is the main idea?

- A. Buses should stop running in summer.
- B. All riders avoid public transit.
- C. Shade can improve the waiting experience for riders.
- D. Shade makes buses travel faster.

107. A student is revising a paragraph. The student center offers a quiet room. Students can reserve it for group projects and tutoring. Which revision best combines the ideas clearly and precisely?

- A. The student center has a room that is useful for students in many different situations.
- B. The student center's quiet room supports group projects and tutoring by offering students a reservable workspace.
- C. Students can use rooms, and group projects sometimes need quiet places to work.
- D. The room exists at the center, and tutoring is an academic activity.

108. A student is revising a paragraph. The recreation office created a gear-rental program. Students can check out helmets, tennis rackets, and yoga mats. Which revision best combines the ideas clearly and precisely?

- A. The recreation office has items that students may use during different campus activities.
- B. Students borrow equipment from the office, which is one of several campus services.
- C. The gear-rental program lets students borrow recreation equipment such as helmets, rackets, and yoga mats.
- D. The program includes many items, although visitors may not understand its exact purpose.

109. A student is revising a paragraph. The peer-mentoring program needs sign-ups. A short video can explain the benefits to new students. Which revision best combines the ideas clearly and precisely?

- A. Sign-ups are needed because programs work when students participate during the year.
- B. Videos reach students because many students watch short content on phones each day.
- C. The program has a challenge that may require more planning and discussion among student leaders.
- D. To increase sign-ups, the peer-mentoring program should share a short video explaining its benefits to new students.

110. A student is revising a paragraph. The history club will host an archive night. Visitors can examine maps, letters, and photographs. Which revision best combines the ideas clearly and precisely?

- A. At archive night, the history club will invite visitors to examine maps, letters, and photographs.
- B. The club will host an event that is related to history and old materials.
- C. Visitors and historical items will be involved in the event somehow.
- D. Archives contain old things, as people generally understand.

111. A student is revising a paragraph. The student center offers a quiet room. Students can reserve it for group projects and tutoring. Which revision best combines the ideas clearly and precisely?

- A. The student center has a room that is useful for students in many different situations.

- B. The student center's quiet room supports group projects and tutoring by offering students a reservable workspace.
- C. Students can use rooms, and group projects sometimes need quiet places to work.
- D. The room exists at the center, and tutoring is an academic activity.

112. A student is revising a paragraph. The recreation office created a gear-rental program. Students can check out helmets, tennis rackets, and yoga mats. Which revision best combines the ideas clearly and precisely?

- A. The recreation office has items that students may use during different campus activities.
- B. Students borrow equipment from the office, which is one of several campus services.
- C. The program includes many items, although visitors may not understand its exact purpose.
- D. The gear-rental program lets students borrow recreation equipment such as helmets, rackets, and yoga mats.

113. A student is revising a paragraph. The peer-mentoring program needs sign-ups. A short video can explain the benefits to new students. Which revision best combines the ideas clearly and precisely?

- A. To increase sign-ups, the peer-mentoring program should share a short video explaining its benefits to new students.
- B. Sign-ups are needed because programs work when students participate during the year.
- C. Videos reach students because many students watch short content on phones each day.
- D. The program has a challenge that may require more planning and discussion among student leaders.

114. A student is revising a paragraph. The history club will host an archive night. Visitors can examine maps, letters, and photographs. Which revision best combines the ideas clearly and precisely?

- A. The club will host an event that is related to history and old materials.
- B. Visitors and historical items will be involved in the event somehow.
- C. At archive night, the history club will invite visitors to examine maps, letters, and photographs.
- D. Archives contain old things, as people generally understand.

115. A student is revising a paragraph. The student center offers a quiet room. Students can reserve it for group projects and tutoring. Which revision best combines the ideas clearly and precisely?

- A. The student center has a room that is useful for students in many different situations.
- B. Students can use rooms, and group projects sometimes need quiet places to work.
- C. The student center's quiet room supports group projects and tutoring by offering students a reservable workspace.
- D. The room exists at the center, and tutoring is an academic activity.

116. A student is revising a paragraph. The recreation office created a gear-rental program. Students can check out helmets, tennis rackets, and yoga mats. Which revision best combines the ideas clearly and precisely?

- A. The gear-rental program lets students borrow recreation equipment such as helmets, rackets, and yoga mats.
- B. The recreation office has items that students may use during different campus activities.
- C. Students borrow equipment from the office, which is one of several campus services.
- D. The program includes many items, although visitors may not understand its exact purpose.

117. A student is revising a paragraph. The peer-mentoring program needs sign-ups. A short video can explain the benefits to new students. Which revision best combines the ideas clearly and precisely?

- A. Sign-ups are needed because programs work when students participate during the year.
- B. Videos reach students because many students watch short content on phones each day.
- C. The program has a challenge that may require more planning and discussion among student leaders.
- D. To increase sign-ups, the peer-mentoring program should share a short video explaining its benefits to new students.

118. A student is revising a paragraph. The history club will host an archive night. Visitors can examine maps, letters, and photographs. Which revision best combines the ideas clearly and precisely?

- A. The club will host an event that is related to history and old materials.

- B. At archive night, the history club will invite visitors to examine maps, letters, and photographs.
- C. Visitors and historical items will be involved in the event somehow.
- D. Archives contain old things, as people generally understand.

119. A student is revising a paragraph. The student center offers a quiet room. Students can reserve it for group projects and tutoring. Which revision best combines the ideas clearly and precisely?

- A. The student center has a room that is useful for students in many different situations.
- B. The student center's quiet room supports group projects and tutoring by offering students a reservable workspace.
- C. Students can use rooms, and group projects sometimes need quiet places to work.
- D. The room exists at the center, and tutoring is an academic activity.

120. A student is revising a paragraph. The recreation office created a gear-rental program. Students can check out helmets, tennis rackets, and yoga mats. Which revision best combines the ideas clearly and precisely?

- A. The recreation office has items that students may use during different campus activities.
- B. Students borrow equipment from the office, which is one of several campus services.
- C. The program includes many items, although visitors may not understand its exact purpose.
- D. The gear-rental program lets students borrow recreation equipment such as helmets, rackets, and yoga mats.

121. A student is revising a paragraph. The peer-mentoring program needs sign-ups. A short video can explain the benefits to new students. Which revision best combines the ideas clearly and precisely?

- A. To increase sign-ups, the peer-mentoring program should share a short video explaining its benefits to new students.
- B. Sign-ups are needed because programs work when students participate during the year.
- C. Videos reach students because many students watch short content on phones each day.
- D. The program has a challenge that may require more planning and discussion among student leaders.

122. A student is revising a paragraph. The history club will host an archive night. Visitors can examine maps, letters, and photographs. Which revision best combines the ideas clearly and precisely?

- A. The club will host an event that is related to history and old materials.
- B. Visitors and historical items will be involved in the event somehow.
- C. At archive night, the history club will invite visitors to examine maps, letters, and photographs.
- D. Archives contain old things, as people generally understand.

123. A student is revising a paragraph. The student center offers a quiet room. Students can reserve it for group projects and tutoring. Which revision best combines the ideas clearly and precisely?

- A. The student center's quiet room supports group projects and tutoring by offering students a reservable workspace.
- B. The student center has a room that is useful for students in many different situations.
- C. Students can use rooms, and group projects sometimes need quiet places to work.
- D. The room exists at the center, and tutoring is an academic activity.

124. A student is revising a paragraph. The recreation office created a gear-rental program. Students can check out helmets, tennis rackets, and yoga mats. Which revision best combines the ideas clearly and precisely?

- A. The recreation office has items that students may use during different campus activities.
- B. Students borrow equipment from the office, which is one of several campus services.
- C. The gear-rental program lets students borrow recreation equipment such as helmets, rackets, and yoga mats.
- D. The program includes many items, although visitors may not understand its exact purpose.

125. A student is revising a paragraph. The peer-mentoring program needs sign-ups. A short video can explain the benefits to new students. Which revision best combines the ideas clearly and precisely?

- A. Sign-ups are needed because programs work when students participate during the year.
- B. Videos reach students because many students watch short content on phones each day.

- C. The program has a challenge that may require more planning and discussion among student leaders.
- D. To increase sign-ups, the peer-mentoring program should share a short video explaining its benefits to new students.

126. A student is revising a paragraph. The history club will host an archive night. Visitors can examine maps, letters, and photographs. Which revision best combines the ideas clearly and precisely?

- A. The club will host an event that is related to history and old materials.
- B. At archive night, the history club will invite visitors to examine maps, letters, and photographs.
- C. Visitors and historical items will be involved in the event somehow.
- D. Archives contain old things, as people generally understand.

127. Which sentence is punctuated correctly?

- A. After the lecture the students, asked questions.
- B. After, the lecture the students asked questions.
- C. After the lecture the, students asked questions.
- D. After the lecture, the students asked questions.

128. Which sentence uses subject-verb agreement correctly?

- A. The list of supplies are on the desk.
- B. The supplies list on the desk.
- C. The list of supplies is on the desk.
- D. The list of supplies be on the desk.

129. Which sentence uses a pronoun clearly?

- A. When Maya met Tessa, she handed her the folder.
- B. When Maya met Tessa, Maya handed Tessa the folder.
- C. When Maya met Tessa, they handed it the folder.

D. When Maya met Tessa, the folder handed her.

130. Which sentence uses parallel structure correctly?

- A. The internship requires arriving on time, taking notes, and asking questions.
- B. The internship requires to arrive on time, notes, and asking questions.
- C. The internship requires arriving on time, to take notes, and questions.
- D. The internship requires arrival on time, taking notes, and to ask questions.

131. Which sentence is punctuated correctly?

- A. After the lecture the students, asked questions.
- B. After the lecture, the students asked questions.
- C. After, the lecture the students asked questions.
- D. After the lecture the, students asked questions.

132. Which sentence uses subject-verb agreement correctly?

- A. The list of supplies is on the desk.
- B. The list of supplies are on the desk.
- C. The supplies list on the desk.
- D. The list of supplies be on the desk.

133. Which sentence uses a pronoun clearly?

- A. When Maya met Tessa, she handed her the folder.
- B. When Maya met Tessa, they handed it the folder.
- C. When Maya met Tessa, Maya handed Tessa the folder.
- D. When Maya met Tessa, the folder handed her.

134. Which sentence uses parallel structure correctly?

- A. The internship requires to arrive on time, notes, and asking questions.
- B. The internship requires arriving on time, to take notes, and questions.
- C. The internship requires arrival on time, taking notes, and to ask questions.
- D. The internship requires arriving on time, taking notes, and asking questions.

135. Which sentence is punctuated correctly?

- A. After the lecture the students, asked questions.
- B. After, the lecture the students asked questions.
- C. After the lecture, the students asked questions.
- D. After the lecture the, students asked questions.

136. Which sentence uses subject-verb agreement correctly?

- A. The list of supplies are on the desk.
- B. The list of supplies is on the desk.
- C. The supplies list on the desk.
- D. The list of supplies be on the desk.

137. Which sentence uses a pronoun clearly?

- A. When Maya met Tessa, she handed her the folder.
- B. When Maya met Tessa, they handed it the folder.
- C. When Maya met Tessa, the folder handed her.
- D. When Maya met Tessa, Maya handed Tessa the folder.

138. Which sentence uses parallel structure correctly?

- A. The internship requires arriving on time, taking notes, and asking questions.
- B. The internship requires to arrive on time, notes, and asking questions.
- C. The internship requires arriving on time, to take notes, and questions.
- D. The internship requires arrival on time, taking notes, and to ask questions.

139. Which sentence is punctuated correctly?

- A. After the lecture the students, asked questions.
- B. After the lecture, the students asked questions.
- C. After, the lecture the students asked questions.
- D. After the lecture the, students asked questions.

140. Which sentence uses subject-verb agreement correctly?

- A. The list of supplies are on the desk.
- B. The supplies list on the desk.
- C. The list of supplies be on the desk.
- D. The list of supplies is on the desk.

141. Which sentence uses a pronoun clearly?

- A. When Maya met Tessa, Maya handed Tessa the folder.
- B. When Maya met Tessa, she handed her the folder.
- C. When Maya met Tessa, they handed it the folder.
- D. When Maya met Tessa, the folder handed her.

142. Which sentence uses parallel structure correctly?

- A. The internship requires to arrive on time, notes, and asking questions.
- B. The internship requires arriving on time, to take notes, and questions.
- C. The internship requires arriving on time, taking notes, and asking questions.

D. The internship requires arrival on time, taking notes, and to ask questions.

143. Which sentence is punctuated correctly?

- A. After the lecture the students, asked questions.
- B. After, the lecture the students asked questions.
- C. After the lecture, the students asked questions.
- D. After the lecture the, students asked questions.

144. Which sentence uses subject-verb agreement correctly?

- A. The list of supplies is on the desk.
- B. The list of supplies are on the desk.
- C. The supplies list on the desk.
- D. The list of supplies be on the desk.

145. Which sentence uses a pronoun clearly?

- A. When Maya met Tessa, she handed her the folder.
- B. When Maya met Tessa, Maya handed Tessa the folder.
- C. When Maya met Tessa, they handed it the folder.
- D. When Maya met Tessa, the folder handed her.

146. Which sentence uses parallel structure correctly?

- A. The internship requires to arrive on time, notes, and asking questions.
- B. The internship requires arriving on time, to take notes, and questions.
- C. The internship requires arrival on time, taking notes, and to ask questions.
- D. The internship requires arriving on time, taking notes, and asking questions.

Practice Exam 13: Answer Key and Explanations

- 1. B** — B is correct because the discount is 10% of 150, leaving 135. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.
- 2. A** — A is correct because the discount is 15% of 159, leaving 135.15. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.
- 3. A** — A is correct because the discount is 20% of 168, leaving 134.4. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.
- 4. B** — B is correct because the discount is 25% of 177, leaving 132.75. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.
- 5. C** — C is correct because the discount is 10% of 186, leaving 167.4. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.
- 6. D** — D is correct because the discount is 15% of 195, leaving 165.75. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.
- 7. A** — A is correct because the discount is 20% of 204, leaving 163.2. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.
- 8. C** — C is correct because the discount is 25% of 213, leaving 159.75. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.
- 9. B** — B is correct because the discount is 10% of 222, leaving 199.8. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the

answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

10. D — D is correct because the discount is 15% of 231, leaving 196.35. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

11. B — B is correct because the discount is 20% of 240, leaving 192. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

12. D — D is correct because the discount is 25% of 249, leaving 186.75. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

13. C — C is correct because the discount is 10% of 258, leaving 232.2. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

14. A — A is correct because the discount is 15% of 267, leaving 226.95. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

15. D — D is correct because the discount is 20% of 276, leaving 220.8. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

16. C — C is correct because the discount is 25% of 285, leaving 213.75. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing. Read closely before choosing.

17. B — B is correct because adding 3 gives $2x = 14$, then division by 2 gives 7. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

18. A — A is correct because adding 3 gives $3x = 24$, then division by 3 gives 8. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported

reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

19. C — C is correct because adding 3 gives $4x = 36$, then division by 4 gives 9. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

20. A — A is correct because adding 3 gives $5x = 50$, then division by 5 gives 10. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

21. B — B is correct because adding 3 gives $2x = 22$, then division by 2 gives 11. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

22. D — D is correct because adding 3 gives $3x = 36$, then division by 3 gives 12. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

23. B — B is correct because adding 3 gives $4x = 52$, then division by 4 gives 13. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

24. C — C is correct because adding 3 gives $5x = 70$, then division by 5 gives 14. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

25. D — D is correct because adding 3 gives $2x = 30$, then division by 2 gives 15. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

26. A — A is correct because adding 3 gives $3x = 48$, then division by 3 gives 16. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

27. B — B is correct because adding 3 gives $4x = 68$, then division by 4 gives 17. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported

reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

28. A — A is correct because adding 3 gives $5x = 90$, then division by 5 gives 18. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

29. D — D is correct because adding 3 gives $2x = 38$, then division by 2 gives 19. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

30. C — C is correct because adding 3 gives $3x = 60$, then division by 3 gives 20. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

31. D — D is correct because adding 3 gives $4x = 84$, then division by 4 gives 21. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

32. A — A is correct because adding 3 gives $5x = 110$, then division by 5 gives 22. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

33. B — B is correct because area equals length times width, or 14 times 5, which is 70. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

34. C — C is correct because area equals length times width, or 15 times 6, which is 90. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

35. D — D is correct because area equals length times width, or 16 times 7, which is 112. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

36. C — C is correct because area equals length times width, or 17 times 8, which is 136. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported

reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

37. B — B is correct because area equals length times width, or 18 times 5, which is 90. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

38. A — A is correct because area equals length times width, or 19 times 6, which is 114. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

39. C — C is correct because area equals length times width, or 20 times 7, which is 140. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

40. B — B is correct because area equals length times width, or 21 times 8, which is 168. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

41. A — A is correct because area equals length times width, or 22 times 5, which is 110. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

42. D — D is correct because area equals length times width, or 23 times 6, which is 138. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

43. B — B is correct because area equals length times width, or 24 times 7, which is 168. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

44. C — C is correct because area equals length times width, or 25 times 8, which is 200. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

45. A — A is correct because area equals length times width, or 26 times 5, which is 130. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported

reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

46. D — D is correct because area equals length times width, or 27 times 6, which is 162. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

47. B — B is correct because area equals length times width, or 28 times 7, which is 196. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

48. A — A is correct because area equals length times width, or 29 times 8, which is 232. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

49. D — D is correct because the sum is 52 and dividing by four values gives 13. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

50. C — C is correct because the sum is 56 and dividing by four values gives 14. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

51. D — D is correct because the sum is 60 and dividing by four values gives 15. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

52. A — A is correct because the sum is 64 and dividing by four values gives 16. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

53. B — B is correct because the sum is 68 and dividing by four values gives 17. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

54. C — C is correct because the sum is 72 and dividing by four values gives 18. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported

reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

55. A — A is correct because the sum is 76 and dividing by four values gives 19. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

56. B — B is correct because the sum is 80 and dividing by four values gives 20. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

57. C — C is correct because the sum is 84 and dividing by four values gives 21. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

58. D — D is correct because the sum is 88 and dividing by four values gives 22. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

59. A — A is correct because the sum is 92 and dividing by four values gives 23. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

60. D — D is correct because the sum is 96 and dividing by four values gives 24. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

61. C — C is correct because the sum is 100 and dividing by four values gives 25. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

62. B — B is correct because the sum is 104 and dividing by four values gives 26. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

63. D — D is correct because the sum is 108 and dividing by four values gives 27. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported

reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

64. C — C is correct because the sum is 112 and dividing by four values gives 28. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

65. B — B is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

66. A — A is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

67. D — D is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

68. C — C is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

69. A — A is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

70. B — B is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

71. B — B is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

72. D — D is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition,

or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

73. C — C is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

74. A — A is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

75. A — A is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

76. B — B is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

77. D — D is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

78. C — C is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

79. A — A is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

80. C — C is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

81. B — B is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition,

or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

82. D — D is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

83. B — B is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

84. A — A is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

85. C — C is correct because the description supplies an implied attitude or mood rather than an explicit statement. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

86. D — D is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

87. D — D is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

88. B — B is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

89. C — C is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

90. A — A is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or

add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

91. B — B is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

92. D — D is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

93. A — A is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

94. C — C is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

95. B — B is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

96. A — A is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

97. C — C is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

98. D — D is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

99. D — D is correct because the central claim connects the stated evidence to the author's broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or

add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

100. C — C is correct because the central claim connects the stated evidence to the author’s broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

101. B — B is correct because the central claim connects the stated evidence to the author’s broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

102. A — A is correct because the central claim connects the stated evidence to the author’s broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

103. D — D is correct because the central claim connects the stated evidence to the author’s broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

104. A — A is correct because the central claim connects the stated evidence to the author’s broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

105. B — B is correct because the central claim connects the stated evidence to the author’s broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

106. C — C is correct because the central claim connects the stated evidence to the author’s broader point. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

107. B — B is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

108. C — C is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a

detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

109. D — D is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

110. A — A is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

111. B — B is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

112. D — D is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

113. A — A is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

114. C — C is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

115. C — C is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

116. A — A is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

117. D — D is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a

detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

118. B — B is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

119. B — B is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

120. D — D is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

121. A — A is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

122. C — C is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

123. A — A is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

124. C — C is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

125. D — D is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

126. B — B is correct because the revision states the relationship between the ideas directly and removes vague, repetitive wording. Check each option against the prompt. The wrong choices change a

detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

127. D — D is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

128. C — C is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

129. B — B is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

130. A — A is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

131. B — B is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

132. A — A is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

133. C — C is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

134. D — D is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

135. C — C is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail,

ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

136. B — B is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

137. D — D is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

138. A — A is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

139. B — B is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

140. D — D is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

141. A — A is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

142. C — C is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

143. C — C is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

144. A — A is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail,

ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

145. B — B is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.

146. D — D is correct because the correct sentence follows standard punctuation, agreement, reference, or parallel-structure rules. Check each option against the prompt. The wrong choices change a detail, ignore a condition, or add unsupported reasoning. Select the answer that matches the evidence and answers the exact question. Read closely before choosing.
