

PRACTICE EXAM 7: TEXAS TSI ASSESSMENT STUDY GUIDE (146 QUESTIONS)

This full-length practice exam contains 146 questions covering Mathematics and English Language Arts and Reading. Work carefully, select the best answer for each item, and use the answer key and explanations to target further study. This unofficial practice material is not affiliated with the Texas Success Initiative Assessment.

1. A rectangle has length 19 units and width 4 units. What is its perimeter?

- A. 46
- B. 76.0
- C. 48.0
- D. 44.0

2. What is the mean of 20 and 5?

- A. 15.0
- B. 11.5
- C. 13.5
- D. 12.5

3. What is $21 + 6$?

- A. 29.0
- B. 27
- C. 28.0
- D. 26.0

4. What is 22 multiplied by 7?

A. 156.0

B. 132.0

C. 154

D. 161.0

5. What is $23 - 8$?

A. 15

B. 16.0

C. 14.0

D. 18.0

6. Solve for x : $3x + 4 = 76$.

A. 23.0

B. 25.0

C. 26.0

D. 24

7. A taxi fare is \$5 plus \$2 per mile. What is the cost for 25 miles?

A. 60.0

B. 57.0

C. 53.0

D. 55

8. What is 25% of 26?

- A. 6.5
- B. 5.5
- C. 8.5
- D. 7.5

9. A rectangle has length 27 units and width 12 units. What is its perimeter?

- A. 324.0
- B. 78
- C. 80.0
- D. 76.0

10. What is the mean of 28 and 13?

- A. 15.0
- B. 19.5
- C. 20.5
- D. 21.5

11. What is $29 + 4$?

- A. 32.0
- B. 35.0
- C. 33
- D. 34.0

12. What is 30 multiplied by 5?

- A. 120.0
- B. 150
- C. 155.0

D. 152.0

13. What is $31 - 6$?

A. 25

B. 28.0

C. 24.0

D. 26.0

14. Solve for x : $3x + 4 = 100$.

A. 31.0

B. 34.0

C. 33.0

D. 32

15. A taxi fare is \$5 plus \$2 per mile. What is the cost for 33 miles?

A. 71

B. 69.0

C. 76.0

D. 73.0

16. What is 25% of 34?

A. 9.5

B. 8.5

C. 7.5

D. 10.5

17. A rectangle has length 35 units and width 10 units. What is its perimeter?

- A. 88.0
- B. 92.0
- C. 350.0
- D. 90

18. What is the mean of 36 and 11?

- A. 24.5
- B. 22.5
- C. 23.5
- D. 25.0

19. What is $37 + 12$?

- A. 48.0
- B. 51.0
- C. 50.0
- D. 49

20. What is 38 multiplied by 13?

- A. 494
- B. 496.0
- C. 507.0
- D. 456.0

21. What is $39 - 4$?

- A. 36.0
- B. 35
- C. 34.0
- D. 38.0

22. Solve for x : $3x + 4 = 124$.

- A. 42.0
- B. 39.0
- C. 40
- D. 41.0

23. A taxi fare is \$5 plus \$2 per mile. What is the cost for 41 miles?

- A. 85.0
- B. 87
- C. 92.0
- D. 89.0

24. What is 25% of 42?

- A. 11.5
- B. 9.5
- C. 10.5
- D. 12.5

25. A rectangle has length 43 units and width 8 units. What is its perimeter?

- A. 102
- B. 100.0
- C. 104.0

D. 344.0

26. What is the mean of 44 and 9?

A. 25.5

B. 35.0

C. 27.5

D. 26.5

27. What is $45 + 10$?

A. 55

B. 56.0

C. 54.0

D. 57.0

28. What is 46 multiplied by 11?

A. 460.0

B. 517.0

C. 506

D. 508.0

29. What is $47 - 12$?

A. 36.0

B. 34.0

C. 38.0

D. 35

30. Solve for x : $3x + 4 = 148$.

- A. 50.0
- B. 48
- C. 49.0
- D. 47.0

31. A taxi fare is \$5 plus \$2 per mile. What is the cost for 49 miles?

- A. 108.0
- B. 105.0
- C. 103
- D. 101.0

32. What is 25% of 50?

- A. 14.5
- B. 11.5
- C. 13.5
- D. 12.5

33. A rectangle has length 51 units and width 6 units. What is its perimeter?

- A. 116.0
- B. 114
- C. 306.0
- D. 112.0

34. What is the mean of 52 and 7?

- A. 29.5
- B. 45.0
- C. 30.5
- D. 28.5

35. What is $53 + 8$?

- A. 62.0
- B. 61
- C. 60.0
- D. 63.0

36. What is 54 multiplied by 9?

- A. 486
- B. 488.0
- C. 432.0
- D. 495.0

37. What is $55 - 10$?

- A. 46.0
- B. 48.0
- C. 45
- D. 44.0

38. Solve for x : $3x + 4 = 172$.

- A. 58.0
- B. 57.0
- C. 55.0

D. 56

39. A taxi fare is \$5 plus \$2 per mile. What is the cost for 57 miles?

A. 124.0

B. 117.0

C. 119

D. 121.0

40. What is 25% of 58?

A. 16.5

B. 14.5

C. 15.5

D. 13.5

41. A rectangle has length 59 units and width 4 units. What is its perimeter?

A. 128.0

B. 124.0

C. 236.0

D. 126

42. What is the mean of 60 and 5?

A. 32.5

B. 33.5

C. 55.0

D. 31.5

43. What is $61 + 6$?

- A. 66.0
- B. 68.0
- C. 67
- D. 69.0

44. What is 62 multiplied by 7?

- A. 434
- B. 436.0
- C. 372.0
- D. 441.0

45. What is $63 - 8$?

- A. 54.0
- B. 55
- C. 58.0
- D. 56.0

46. Solve for x : $3x + 4 = 196$.

- A. 66.0
- B. 63.0
- C. 65.0
- D. 64

47. A taxi fare is \$5 plus \$2 per mile. What is the cost for 65 miles?

- A. 137.0
- B. 135
- C. 140.0
- D. 133.0

48. What is 25% of 66?

- A. 17.5
- B. 15.5
- C. 18.5
- D. 16.5

49. A rectangle has length 67 units and width 12 units. What is its perimeter?

- A. 160.0
- B. 156.0
- C. 158
- D. 804.0

50. What is the mean of 68 and 13?

- A. 40.5
- B. 55.0
- C. 41.5
- D. 39.5

51. What is $69 + 4$?

- A. 72.0
- B. 74.0
- C. 73

D. 75.0

52. What is 70 multiplied by 5?

A. 355.0

B. 350

C. 352.0

D. 280.0

53. What is $71 - 6$?

A. 65

B. 68.0

C. 66.0

D. 64.0

54. Solve for x : $3x + 4 = 220$.

A. 73.0

B. 74.0

C. 71.0

D. 72

55. A taxi fare is \$5 plus \$2 per mile. What is the cost for 73 miles?

A. 149.0

B. 151

C. 153.0

D. 156.0

56. What is 25% of 74?

- A. 18.5
- B. 19.5
- C. 20.5
- D. 17.5

57. A rectangle has length 75 units and width 10 units. What is its perimeter?

- A. 172.0
- B. 750.0
- C. 170
- D. 168.0

58. What is the mean of 76 and 11?

- A. 65.0
- B. 42.5
- C. 44.5
- D. 43.5

59. What is $77 + 12$?

- A. 89
- B. 88.0
- C. 90.0
- D. 91.0

60. What is 78 multiplied by 13?

- A. 1016.0
- B. 936.0
- C. 1014
- D. 1027.0

61. What is $79 - 4$?

- A. 76.0
- B. 75
- C. 78.0
- D. 74.0

62. Solve for x : $3x + 4 = 244$.

- A. 82.0
- B. 79.0
- C. 81.0
- D. 80

63. A taxi fare is \$5 plus \$2 per mile. What is the cost for 81 miles?

- A. 165.0
- B. 169.0
- C. 167
- D. 172.0

64. What is 25% of 82?

- A. 20.5
- B. 22.5
- C. 21.5

D. 19.5

65. A rectangle has length 83 units and width 8 units. What is its perimeter?

A. 184.0

B. 180.0

C. 664.0

D. 182

66. What is the mean of 84 and 9?

A. 75.0

B. 46.5

C. 45.5

D. 47.5

67. What is $85 + 10$?

A. 95

B. 97.0

C. 94.0

D. 96.0

68. What is 86 multiplied by 11?

A. 860.0

B. 957.0

C. 948.0

D. 946

69. What is $87 - 12$?

- A. 74.0
- B. 76.0
- C. 75
- D. 78.0

70. Solve for x : $3x + 4 = 268$.

- A. 87.0
- B. 88
- C. 89.0
- D. 90.0

71. A taxi fare is \$5 plus \$2 per mile. What is the cost for 89 miles?

- A. 188.0
- B. 181.0
- C. 183
- D. 185.0

72. What is 25% of 90?

- A. 22.5
- B. 21.5
- C. 24.5
- D. 23.5

73. A rectangle has length 91 units and width 6 units. What is its perimeter?

- A. 196.0
- B. 194
- C. 546.0
- D. 192.0

74. Choose the sentence that is written correctly for a student film festival.

- A. After the meeting the committee, reviewed the proposal.
- B. Maya submitted their draft before the deadline.
- C. The collection of essays are on the shelf.
- D. After the meeting, the committee reviewed the proposal.

75. Which revision best improves clarity in this sentence about a neighborhood bike-share plan: "The team, which had several plans, made a decision that was final"?

- A. The final decision, which was a decision, was made by the team.
- B. The team had plans, and a decision was made by them finally.
- C. The team made a final decision after considering several plans.
- D. Several plans were there, making the team decision final, it was.

76. A paragraph about a local science fair lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. The weather changes quickly during some seasons.
- B. A local science fair can succeed when participants have a clear shared plan.
- C. One example is useful only after the conclusion is written.
- D. Many people enjoy different activities on weekends.

77. Which transition best completes this idea about a campus orientation guide? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. As a result
- B. For example
- C. Meanwhile
- D. In contrast

78. Choose the sentence that is written correctly for a volunteer training memo.

- A. Maya submitted their draft before the deadline.
- B. After the meeting the committee, reviewed the proposal.
- C. The collection of essays are on the shelf.
- D. The workshop ended early, so participants had time for questions.

79. Which revision best improves clarity in this sentence about a community reading program: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. Several plans were there, making the team decision final, it was.
- C. The team had plans, and a decision was made by them finally.
- D. The final decision, which was a decision, was made by the team.

80. A paragraph about a city garden report lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. The weather changes quickly during some seasons.
- B. One example is useful only after the conclusion is written.
- C. A city garden report can succeed when participants have a clear shared plan.
- D. Many people enjoy different activities on weekends.

81. Which transition best completes this idea about a student podcast proposal? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. In contrast
- B. As a result
- C. For example
- D. Meanwhile

82. Choose the sentence that is written correctly for a public art survey.

- A. The collection of essays are on the shelf.
- B. Maya submitted their draft before the deadline.
- C. After the meeting the committee, reviewed the proposal.
- D. Walking across campus, I noticed the new signs.

83. Which revision best improves clarity in this sentence about a career-planning session: "The team, which had several plans, made a decision that was final"?

- A. The final decision, which was a decision, was made by the team.
- B. Several plans were there, making the team decision final, it was.
- C. The team had plans, and a decision was made by them finally.
- D. The team made a final decision after considering several plans.

84. A paragraph about a recreation-center notice lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. One example is useful only after the conclusion is written.
- B. The weather changes quickly during some seasons.
- C. A recreation-center notice can succeed when participants have a clear shared plan.
- D. Many people enjoy different activities on weekends.

85. Which transition best completes this idea about a school supply drive? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. For example
- B. As a result
- C. Meanwhile
- D. In contrast

86. Choose the sentence that is written correctly for a student film festival.

- A. After the meeting, the committee reviewed the proposal.
- B. After the meeting the committee, reviewed the proposal.
- C. The collection of essays are on the shelf.
- D. Maya submitted their draft before the deadline.

87. Which revision best improves clarity in this sentence about a neighborhood bike-share plan: "The team, which had several plans, made a decision that was final"?

- A. Several plans were there, making the team decision final, it was.
- B. The team had plans, and a decision was made by them finally.
- C. The final decision, which was a decision, was made by the team.
- D. The team made a final decision after considering several plans.

88. A paragraph about a local science fair lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. The weather changes quickly during some seasons.
- B. Many people enjoy different activities on weekends.
- C. A local science fair can succeed when participants have a clear shared plan.
- D. One example is useful only after the conclusion is written.

89. Which transition best completes this idea about a campus orientation guide? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. As a result
- B. Meanwhile
- C. In contrast
- D. For example

90. Choose the sentence that is written correctly for a volunteer training memo.

- A. After the meeting the committee, reviewed the proposal.
- B. The workshop ended early, so participants had time for questions.
- C. Maya submitted their draft before the deadline.
- D. The collection of essays are on the shelf.

91. Which revision best improves clarity in this sentence about a community reading program: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. Several plans were there, making the team decision final, it was.
- C. The final decision, which was a decision, was made by the team.
- D. The team had plans, and a decision was made by them finally.

92. A paragraph about a city garden report lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. Many people enjoy different activities on weekends.
- B. A city garden report can succeed when participants have a clear shared plan.
- C. One example is useful only after the conclusion is written.
- D. The weather changes quickly during some seasons.

93. Which transition best completes this idea about a student podcast proposal? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. Meanwhile
- B. For example
- C. As a result
- D. In contrast

94. Choose the sentence that is written correctly for a public art survey.

- A. The collection of essays are on the shelf.
- B. Maya submitted their draft before the deadline.
- C. After the meeting the committee, reviewed the proposal.
- D. Walking across campus, I noticed the new signs.

95. Which revision best improves clarity in this sentence about a career-planning session: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. The final decision, which was a decision, was made by the team.
- C. The team had plans, and a decision was made by them finally.
- D. Several plans were there, making the team decision final, it was.

96. A paragraph about a recreation-center notice lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. One example is useful only after the conclusion is written.
- B. The weather changes quickly during some seasons.
- C. Many people enjoy different activities on weekends.
- D. A recreation-center notice can succeed when participants have a clear shared plan.

97. Which transition best completes this idea about a school supply drive? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. In contrast
- B. For example
- C. As a result
- D. Meanwhile

98. Choose the sentence that is written correctly for a student film festival.

- A. Maya submitted their draft before the deadline.
- B. After the meeting, the committee reviewed the proposal.
- C. The collection of essays are on the shelf.
- D. After the meeting the committee, reviewed the proposal.

99. Which revision best improves clarity in this sentence about a neighborhood bike-share plan: "The team, which had several plans, made a decision that was final"?

- A. Several plans were there, making the team decision final, it was.
- B. The team made a final decision after considering several plans.
- C. The team had plans, and a decision was made by them finally.
- D. The final decision, which was a decision, was made by the team.

100. A paragraph about a local science fair lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. One example is useful only after the conclusion is written.
- B. Many people enjoy different activities on weekends.
- C. The weather changes quickly during some seasons.
- D. A local science fair can succeed when participants have a clear shared plan.

101. Which transition best completes this idea about a campus orientation guide? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. As a result
- B. In contrast
- C. For example
- D. Meanwhile

102. Choose the sentence that is written correctly for a volunteer training memo.

- A. After the meeting the committee, reviewed the proposal.
- B. Maya submitted their draft before the deadline.
- C. The workshop ended early, so participants had time for questions.
- D. The collection of essays are on the shelf.

103. Which revision best improves clarity in this sentence about a community reading program: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. The team had plans, and a decision was made by them finally.
- C. Several plans were there, making the team decision final, it was.
- D. The final decision, which was a decision, was made by the team.

104. A paragraph about a city garden report lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. The weather changes quickly during some seasons.
- B. A city garden report can succeed when participants have a clear shared plan.
- C. One example is useful only after the conclusion is written.
- D. Many people enjoy different activities on weekends.

105. Which transition best completes this idea about a student podcast proposal? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. In contrast
- B. For example
- C. As a result
- D. Meanwhile

106. Choose the sentence that is written correctly for a public art survey.

- A. After the meeting the committee, reviewed the proposal.
- B. The collection of essays are on the shelf.
- C. Maya submitted their draft before the deadline.
- D. Walking across campus, I noticed the new signs.

107. Which revision best improves clarity in this sentence about a career-planning session: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. Several plans were there, making the team decision final, it was.
- C. The final decision, which was a decision, was made by the team.
- D. The team had plans, and a decision was made by them finally.

108. A paragraph about a recreation-center notice lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. One example is useful only after the conclusion is written.
- B. Many people enjoy different activities on weekends.
- C. The weather changes quickly during some seasons.
- D. A recreation-center notice can succeed when participants have a clear shared plan.

109. Which transition best completes this idea about a school supply drive? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. In contrast
- B. As a result
- C. For example
- D. Meanwhile

110. Choose the sentence that is written correctly for a student film festival.

- A. Maya submitted their draft before the deadline.
- B. The collection of essays are on the shelf.
- C. After the meeting, the committee reviewed the proposal.
- D. After the meeting the committee, reviewed the proposal.

111. Which revision best improves clarity in this sentence about a neighborhood bike-share plan: "The team, which had several plans, made a decision that was final"?

- A. The final decision, which was a decision, was made by the team.
- B. Several plans were there, making the team decision final, it was.
- C. The team had plans, and a decision was made by them finally.
- D. The team made a final decision after considering several plans.

112. A paragraph about a local science fair lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. The weather changes quickly during some seasons.
- B. A local science fair can succeed when participants have a clear shared plan.
- C. Many people enjoy different activities on weekends.
- D. One example is useful only after the conclusion is written.

113. Which transition best completes this idea about a campus orientation guide? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. For example
- B. In contrast
- C. As a result
- D. Meanwhile

114. Choose the sentence that is written correctly for a volunteer training memo.

- A. The workshop ended early, so participants had time for questions.
- B. Maya submitted their draft before the deadline.
- C. The collection of essays are on the shelf.
- D. After the meeting the committee, reviewed the proposal.

115. Which revision best improves clarity in this sentence about a community reading program: "The team, which had several plans, made a decision that was final"?

- A. The team had plans, and a decision was made by them finally.
- B. The team made a final decision after considering several plans.
- C. Several plans were there, making the team decision final, it was.
- D. The final decision, which was a decision, was made by the team.

116. A paragraph about a city garden report lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. A city garden report can succeed when participants have a clear shared plan.
- B. The weather changes quickly during some seasons.
- C. Many people enjoy different activities on weekends.
- D. One example is useful only after the conclusion is written.

117. Which transition best completes this idea about a student podcast proposal? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. Meanwhile
- B. In contrast
- C. As a result
- D. For example

118. Choose the sentence that is written correctly for a public art survey.

- A. After the meeting the committee, reviewed the proposal.
- B. Maya submitted their draft before the deadline.
- C. The collection of essays are on the shelf.
- D. Walking across campus, I noticed the new signs.

119. Which revision best improves clarity in this sentence about a career-planning session: "The team, which had several plans, made a decision that was final"?

- A. Several plans were there, making the team decision final, it was.
- B. The team made a final decision after considering several plans.
- C. The final decision, which was a decision, was made by the team.
- D. The team had plans, and a decision was made by them finally.

120. A paragraph about a recreation-center notice lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. Many people enjoy different activities on weekends.
- B. The weather changes quickly during some seasons.
- C. A recreation-center notice can succeed when participants have a clear shared plan.
- D. One example is useful only after the conclusion is written.

121. Which transition best completes this idea about a school supply drive? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. As a result
- B. Meanwhile
- C. For example
- D. In contrast

122. Choose the sentence that is written correctly for a student film festival.

- A. After the meeting the committee, reviewed the proposal.
- B. The collection of essays are on the shelf.
- C. Maya submitted their draft before the deadline.
- D. After the meeting, the committee reviewed the proposal.

123. Which revision best improves clarity in this sentence about a neighborhood bike-share plan: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. The final decision, which was a decision, was made by the team.
- C. The team had plans, and a decision was made by them finally.
- D. Several plans were there, making the team decision final, it was.

124. A paragraph about a local science fair lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. The weather changes quickly during some seasons.
- B. Many people enjoy different activities on weekends.
- C. One example is useful only after the conclusion is written.
- D. A local science fair can succeed when participants have a clear shared plan.

125. Which transition best completes this idea about a campus orientation guide? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. In contrast
- B. Meanwhile
- C. As a result
- D. For example

126. Choose the sentence that is written correctly for a volunteer training memo.

- A. The collection of essays are on the shelf.
- B. The workshop ended early, so participants had time for questions.
- C. After the meeting the committee, reviewed the proposal.
- D. Maya submitted their draft before the deadline.

127. Which revision best improves clarity in this sentence about a community reading program: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. The team had plans, and a decision was made by them finally.
- C. Several plans were there, making the team decision final, it was.
- D. The final decision, which was a decision, was made by the team.

128. A paragraph about a city garden report lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. One example is useful only after the conclusion is written.
- B. The weather changes quickly during some seasons.
- C. A city garden report can succeed when participants have a clear shared plan.
- D. Many people enjoy different activities on weekends.

129. Which transition best completes this idea about a student podcast proposal? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. In contrast
- B. Meanwhile
- C. For example
- D. As a result

130. Choose the sentence that is written correctly for a public art survey.

- A. Maya submitted their draft before the deadline.
- B. Walking across campus, I noticed the new signs.
- C. The collection of essays are on the shelf.
- D. After the meeting the committee, reviewed the proposal.

131. Which revision best improves clarity in this sentence about a career-planning session: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. The final decision, which was a decision, was made by the team.
- C. Several plans were there, making the team decision final, it was.
- D. The team had plans, and a decision was made by them finally.

132. A paragraph about a recreation-center notice lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. One example is useful only after the conclusion is written.
- B. A recreation-center notice can succeed when participants have a clear shared plan.
- C. The weather changes quickly during some seasons.
- D. Many people enjoy different activities on weekends.

133. Which transition best completes this idea about a school supply drive? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. For example
- B. Meanwhile
- C. As a result
- D. In contrast

134. Choose the sentence that is written correctly for a student film festival.

- A. Maya submitted their draft before the deadline.
- B. After the meeting the committee, reviewed the proposal.
- C. The collection of essays are on the shelf.
- D. After the meeting, the committee reviewed the proposal.

135. Which revision best improves clarity in this sentence about a neighborhood bike-share plan: "The team, which had several plans, made a decision that was final"?

- A. Several plans were there, making the team decision final, it was.
- B. The final decision, which was a decision, was made by the team.
- C. The team had plans, and a decision was made by them finally.
- D. The team made a final decision after considering several plans.

136. A paragraph about a local science fair lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. A local science fair can succeed when participants have a clear shared plan.
- B. One example is useful only after the conclusion is written.
- C. The weather changes quickly during some seasons.
- D. Many people enjoy different activities on weekends.

137. Which transition best completes this idea about a campus orientation guide? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. In contrast
- B. As a result
- C. For example
- D. Meanwhile

138. Choose the sentence that is written correctly for a volunteer training memo.

- A. After the meeting the committee, reviewed the proposal.
- B. Maya submitted their draft before the deadline.
- C. The workshop ended early, so participants had time for questions.
- D. The collection of essays are on the shelf.

139. Which revision best improves clarity in this sentence about a community reading program: "The team, which had several plans, made a decision that was final"?

- A. Several plans were there, making the team decision final, it was.
- B. The team made a final decision after considering several plans.
- C. The team had plans, and a decision was made by them finally.
- D. The final decision, which was a decision, was made by the team.

140. A paragraph about a city garden report lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. One example is useful only after the conclusion is written.
- B. The weather changes quickly during some seasons.
- C. A city garden report can succeed when participants have a clear shared plan.
- D. Many people enjoy different activities on weekends.

141. Which transition best completes this idea about a student podcast proposal? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. As a result
- B. For example
- C. In contrast
- D. Meanwhile

142. Choose the sentence that is written correctly for a public art survey.

- A. After the meeting the committee, reviewed the proposal.
- B. The collection of essays are on the shelf.
- C. Maya submitted their draft before the deadline.
- D. Walking across campus, I noticed the new signs.

143. Which revision best improves clarity in this sentence about a career-planning session: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. The final decision, which was a decision, was made by the team.
- C. Several plans were there, making the team decision final, it was.
- D. The team had plans, and a decision was made by them finally.

144. A paragraph about a recreation-center notice lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. The weather changes quickly during some seasons.
- B. One example is useful only after the conclusion is written.
- C. A recreation-center notice can succeed when participants have a clear shared plan.
- D. Many people enjoy different activities on weekends.

145. Which transition best completes this idea about a school supply drive? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. In contrast
- B. Meanwhile
- C. For example
- D. As a result

146. Choose the sentence that is written correctly for a student film festival.

- A. Maya submitted their draft before the deadline.
- B. After the meeting, the committee reviewed the proposal.
- C. The collection of essays are on the shelf.
- D. After the meeting the committee, reviewed the proposal.

Practice Exam 7: Answer Key and Explanations

1. A — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 46, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

2. D — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 12.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

3. B — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 27, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

4. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 154, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

5. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 15, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

6. D — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 24, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

7. D — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 55, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

8. A — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 6.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

9. B — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 78, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

10. C — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 20.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

11. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 33, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

12. B — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 150, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

13. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 25, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

14. D — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 32, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

15. A — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 71, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

16. B — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 8.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

17. D — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 90, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

18. C — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 23.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

19. D — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 49, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

20. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 494, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

21. B — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 35, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

22. C — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 40, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

23. B — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 87, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

24. C — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 10.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

25. A — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 102, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

26. D — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 26.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

27. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 55, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

28. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 506, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

29. D — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 35, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

30. B — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 48, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

31. C — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 103, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

32. D — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 12.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

33. B — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 114, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

34. A — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 29.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

35. B — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 61, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

36. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 486, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

37. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 45, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

38. D — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 56, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

39. C — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 119, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

40. B — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 14.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

41. D — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 126, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

42. A — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 32.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

43. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 67, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

44. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 434, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

45. B — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 55, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

46. D — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 64, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

47. B — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 135, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

48. D — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 16.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

49. C — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 158, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

50. A — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 40.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

51. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 73, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

52. B — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 350, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

53. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 65, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

54. D — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 72, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

55. B — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 151, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

56. A — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 18.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

57. C — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 170, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

58. D — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 43.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

59. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 89, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

60. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 1014, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

61. B — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 75, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

62. D — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 80, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

63. C — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 167, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

64. A — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 20.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

65. D — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 182, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

66. B — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 46.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

67. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 95, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

68. D — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 946, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

69. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 75, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

70. B — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 88, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

71. C — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 183, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

72. A — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 22.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

73. B — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 194, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

74. D — The keyed choice is correct because it use a comma after an introductory phrase. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

75. C — The keyed choice is correct because it maintain subject-verb agreement. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

76. B — The keyed choice is correct because it use the pronoun that clearly refers to its noun. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

77. A — The keyed choice is correct because it avoid a sentence fragment. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

78. D — The keyed choice is correct because it avoid a run-on sentence. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

79. A — The keyed choice is correct because it choose the concise, direct wording. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

80. C — The keyed choice is correct because it use parallel structure in a series. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

81. B — The keyed choice is correct because it use a semicolon to join related independent clauses. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

82. D — The keyed choice is correct because it place the modifier next to the word it describes. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

83. D — The keyed choice is correct because it select a transition showing contrast. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

84. C — The keyed choice is correct because it choose evidence that directly supports the claim. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

85. B — The keyed choice is correct because it state the main idea without adding an unsupported detail. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

86. A — The keyed choice is correct because it use a comma after an introductory phrase. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

87. D — The keyed choice is correct because it maintain subject-verb agreement. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

88. C — The keyed choice is correct because it use the pronoun that clearly refers to its noun. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

89. A — The keyed choice is correct because it avoid a sentence fragment. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

90. B — The keyed choice is correct because it avoid a run-on sentence. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

91. A — The keyed choice is correct because it choose the concise, direct wording. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

92. B — The keyed choice is correct because it use parallel structure in a series. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

93. C — The keyed choice is correct because it use a semicolon to join related independent clauses. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

94. D — The keyed choice is correct because it place the modifier next to the word it describes. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

95. A — The keyed choice is correct because it select a transition showing contrast. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

96. D — The keyed choice is correct because it choose evidence that directly supports the claim. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

97. C — The keyed choice is correct because it state the main idea without adding an unsupported detail. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

98. B — The keyed choice is correct because it use a comma after an introductory phrase. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

99. B — The keyed choice is correct because it maintain subject-verb agreement. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

100. D — The keyed choice is correct because it use the pronoun that clearly refers to its noun. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

101. A — The keyed choice is correct because it avoid a sentence fragment. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

102. C — The keyed choice is correct because it avoid a run-on sentence. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

103. A — The keyed choice is correct because it choose the concise, direct wording. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

104. B — The keyed choice is correct because it use parallel structure in a series. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

105. C — The keyed choice is correct because it use a semicolon to join related independent clauses. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

106. D — The keyed choice is correct because it place the modifier next to the word it describes. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

107. A — The keyed choice is correct because it select a transition showing contrast. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

108. D — The keyed choice is correct because it choose evidence that directly supports the claim. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

109. B — The keyed choice is correct because it state the main idea without adding an unsupported detail. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

110. C — The keyed choice is correct because it use a comma after an introductory phrase. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

111. D — The keyed choice is correct because it maintain subject-verb agreement. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

112. B — The keyed choice is correct because it use the pronoun that clearly refers to its noun. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

113. C — The keyed choice is correct because it avoid a sentence fragment. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

114. A — The keyed choice is correct because it avoid a run-on sentence. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

115. B — The keyed choice is correct because it choose the concise, direct wording. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

116. A — The keyed choice is correct because it use parallel structure in a series. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

117. C — The keyed choice is correct because it use a semicolon to join related independent clauses. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

118. D — The keyed choice is correct because it place the modifier next to the word it describes. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

119. B — The keyed choice is correct because it select a transition showing contrast. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

120. C — The keyed choice is correct because it choose evidence that directly supports the claim. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

121. A — The keyed choice is correct because it state the main idea without adding an unsupported detail. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

122. D — The keyed choice is correct because it use a comma after an introductory phrase. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

123. A — The keyed choice is correct because it maintain subject-verb agreement. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

124. D — The keyed choice is correct because it use the pronoun that clearly refers to its noun. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

125. C — The keyed choice is correct because it avoid a sentence fragment. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

126. B — The keyed choice is correct because it avoid a run-on sentence. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

127. A — The keyed choice is correct because it choose the concise, direct wording. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

128. C — The keyed choice is correct because it use parallel structure in a series. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

129. D — The keyed choice is correct because it use a semicolon to join related independent clauses. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

130. B — The keyed choice is correct because it place the modifier next to the word it describes. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

131. A — The keyed choice is correct because it select a transition showing contrast. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

132. B — The keyed choice is correct because it choose evidence that directly supports the claim. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

133. C — The keyed choice is correct because it state the main idea without adding an unsupported detail. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

134. D — The keyed choice is correct because it use a comma after an introductory phrase. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

135. D — The keyed choice is correct because it maintain subject-verb agreement. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

136. A — The keyed choice is correct because it use the pronoun that clearly refers to its noun. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

137. B — The keyed choice is correct because it avoid a sentence fragment. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

138. C — The keyed choice is correct because it avoid a run-on sentence. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

139. B — The keyed choice is correct because it choose the concise, direct wording. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

140. C — The keyed choice is correct because it use parallel structure in a series. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

141. A — The keyed choice is correct because it use a semicolon to join related independent clauses. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

142. D — The keyed choice is correct because it place the modifier next to the word it describes. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

143. A — The keyed choice is correct because it select a transition showing contrast. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

144. C — The keyed choice is correct because it choose evidence that directly supports the claim. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

145. D — The keyed choice is correct because it state the main idea without adding an unsupported detail. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

146. B — The keyed choice is correct because it use a comma after an introductory phrase. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.
