

PRACTICE EXAM 9: TEXAS TSI ASSESSMENT STUDY GUIDE (146 QUESTIONS)

This full-length practice exam contains 146 questions covering Mathematics and English Language Arts and Reading. Work carefully, select the best answer for each item, and use the answer key and explanations to target further study. This unofficial practice material is not affiliated with the Texas Success Initiative Assessment.

1. Solve for x : $3x + 4 = 97$.

- A. 32.0
- B. 30.0
- C. 31
- D. 33.0

2. A taxi fare is \$5 plus \$2 per mile. What is the cost for 32 miles?

- A. 69
- B. 74.0
- C. 71.0
- D. 67.0

3. What is 25% of 33?

- A. 8.25
- B. 9.25
- C. 10.25
- D. 7.25

4. A rectangle has length 34 units and width 8 units. What is its perimeter?

- A. 82.0
- B. 84
- C. 86.0
- D. 272.0

5. What is the mean of 35 and 9?

- A. 21.0
- B. 26.0
- C. 23.0
- D. 22.0

6. What is $36 + 10$?

- A. 48.0
- B. 45.0
- C. 46
- D. 47.0

7. What is 37 multiplied by 11?

- A. 418.0
- B. 370.0
- C. 409.0
- D. 407

8. What is $38 - 12$?

- A. 26
- B. 29.0
- C. 25.0
- D. 27.0

9. Solve for x : $3x + 4 = 121$.

- A. 41.0
- B. 39
- C. 40.0
- D. 38.0

10. A taxi fare is \$5 plus \$2 per mile. What is the cost for 40 miles?

- A. 90.0
- B. 83.0
- C. 85
- D. 87.0

11. What is 25% of 41?

- A. 11.25
- B. 12.25
- C. 9.25
- D. 10.25

12. A rectangle has length 42 units and width 5 units. What is its perimeter?

- A. 210.0
- B. 94
- C. 92.0

D. 96.0

13. What is the mean of 43 and 6?

A. 25.5

B. 37.0

C. 24.5

D. 23.5

14. What is $44 + 7$?

A. 51

B. 53.0

C. 50.0

D. 52.0

15. What is 45 multiplied by 8?

A. 362.0

B. 368.0

C. 360

D. 315.0

16. What is $46 - 9$?

A. 38.0

B. 37

C. 36.0

D. 40.0

17. Solve for x : $3x + 4 = 145$.

- A. 49.0
- B. 48.0
- C. 46.0
- D. 47

18. A taxi fare is \$5 plus \$2 per mile. What is the cost for 48 miles?

- A. 101
- B. 103.0
- C. 106.0
- D. 99.0

19. What is 25% of 49?

- A. 13.25
- B. 14.25
- C. 12.25
- D. 11.25

20. A rectangle has length 50 units and width 13 units. What is its perimeter?

- A. 128.0
- B. 126
- C. 124.0
- D. 650.0

21. What is the mean of 51 and 14?

- A. 32.5
- B. 31.5
- C. 37.0
- D. 33.5

22. What is $52 + 15$?

- A. 68.0
- B. 69.0
- C. 66.0
- D. 67

23. What is 53 multiplied by 5?

- A. 267.0
- B. 270.0
- C. 265
- D. 212.0

24. What is $54 - 6$?

- A. 49.0
- B. 51.0
- C. 47.0
- D. 48

25. Solve for x : $3x + 4 = 169$.

- A. 55
- B. 56.0
- C. 57.0

D. 54.0

26. A taxi fare is \$5 plus \$2 per mile. What is the cost for 56 miles?

A. 119.0

B. 117

C. 115.0

D. 122.0

27. What is 25% of 57?

A. 14.25

B. 15.25

C. 13.25

D. 16.25

28. A rectangle has length 58 units and width 10 units. What is its perimeter?

A. 138.0

B. 136

C. 134.0

D. 580.0

29. What is the mean of 59 and 11?

A. 36.0

B. 34.0

C. 48.0

D. 35.0

30. What is $60 + 12$?

- A. 74.0
- B. 71.0
- C. 72
- D. 73.0

31. What is 61 multiplied by 13?

- A. 732.0
- B. 793
- C. 806.0
- D. 795.0

32. What is $62 - 14$?

- A. 47.0
- B. 51.0
- C. 49.0
- D. 48

33. Solve for x : $3x + 4 = 193$.

- A. 62.0
- B. 65.0
- C. 63
- D. 64.0

34. A taxi fare is \$5 plus \$2 per mile. What is the cost for 64 miles?

- A. 133
- B. 138.0
- C. 131.0
- D. 135.0

35. What is 25% of 65?

- A. 17.25
- B. 15.25
- C. 18.25
- D. 16.25

36. A rectangle has length 66 units and width 7 units. What is its perimeter?

- A. 144.0
- B. 146
- C. 148.0
- D. 462.0

37. What is the mean of 67 and 8?

- A. 36.5
- B. 38.5
- C. 37.5
- D. 59.0

38. What is $68 + 9$?

- A. 77
- B. 78.0
- C. 79.0

D. 76.0

39. What is 69 multiplied by 10?

A. 692.0

B. 700.0

C. 690

D. 621.0

40. What is $70 - 11$?

A. 60.0

B. 59

C. 62.0

D. 58.0

41. Solve for x : $3x + 4 = 217$.

A. 71

B. 73.0

C. 70.0

D. 72.0

42. A taxi fare is \$5 plus \$2 per mile. What is the cost for 72 miles?

A. 147.0

B. 154.0

C. 151.0

D. 149

43. What is 25% of 73?

- A. 20.25
- B. 19.25
- C. 18.25
- D. 17.25

44. A rectangle has length 74 units and width 15 units. What is its perimeter?

- A. 180.0
- B. 178
- C. 176.0
- D. 1110.0

45. What is the mean of 75 and 5?

- A. 40.0
- B. 41.0
- C. 39.0
- D. 70.0

46. What is $76 + 6$?

- A. 83.0
- B. 81.0
- C. 82
- D. 84.0

47. What is 77 multiplied by 7?

- A. 541.0
- B. 546.0
- C. 462.0
- D. 539

48. What is $78 - 8$?

- A. 71.0
- B. 73.0
- C. 69.0
- D. 70

49. Solve for x : $3x + 4 = 241$.

- A. 78.0
- B. 79
- C. 80.0
- D. 81.0

50. A taxi fare is \$5 plus \$2 per mile. What is the cost for 80 miles?

- A. 165
- B. 163.0
- C. 170.0
- D. 167.0

51. What is 25% of 81?

- A. 21.25
- B. 19.25
- C. 20.25

D. 22.25

52. A rectangle has length 82 units and width 12 units. What is its perimeter?

A. 188

B. 190.0

C. 984.0

D. 186.0

53. What is the mean of 83 and 13?

A. 47.0

B. 70.0

C. 49.0

D. 48.0

54. What is $84 + 14$?

A. 100.0

B. 98

C. 99.0

D. 97.0

55. What is 85 multiplied by 15?

A. 1290.0

B. 1277.0

C. 1190.0

D. 1275

56. What is $86 - 5$?

- A. 81
- B. 84.0
- C. 82.0
- D. 80.0

57. Solve for x : $3x + 4 = 265$.

- A. 89.0
- B. 88.0
- C. 87
- D. 86.0

58. A taxi fare is \$5 plus \$2 per mile. What is the cost for 88 miles?

- A. 186.0
- B. 181
- C. 179.0
- D. 183.0

59. What is 25% of 89?

- A. 21.25
- B. 23.25
- C. 24.25
- D. 22.25

60. A rectangle has length 90 units and width 9 units. What is its perimeter?

- A. 198
- B. 200.0
- C. 196.0
- D. 810.0

61. What is the mean of 91 and 10?

- A. 51.5
- B. 50.5
- C. 49.5
- D. 81.0

62. What is $92 + 11$?

- A. 105.0
- B. 104.0
- C. 103
- D. 102.0

63. What is 93 multiplied by 12?

- A. 1116
- B. 1023.0
- C. 1118.0
- D. 1128.0

64. What is $94 - 13$?

- A. 84.0
- B. 80.0
- C. 81

D. 82.0

65. Solve for x : $3x + 4 = 289$.

A. 97.0

B. 94.0

C. 96.0

D. 95

66. A taxi fare is \$5 plus \$2 per mile. What is the cost for 96 miles?

A. 195.0

B. 197

C. 199.0

D. 202.0

67. What is 25% of 97?

A. 23.25

B. 25.25

C. 24.25

D. 26.25

68. A rectangle has length 98 units and width 6 units. What is its perimeter?

A. 208

B. 210.0

C. 588.0

D. 206.0

69. What is the mean of 99 and 7?

- A. 52.0
- B. 92.0
- C. 54.0
- D. 53.0

70. What is $100 + 8$?

- A. 107.0
- B. 108
- C. 110.0
- D. 109.0

71. What is 101 multiplied by 9?

- A. 808.0
- B. 911.0
- C. 918.0
- D. 909

72. What is $102 - 10$?

- A. 92
- B. 91.0
- C. 95.0
- D. 93.0

73. Solve for x : $3x + 4 = 313$.

- A. 104.0
- B. 103
- C. 105.0
- D. 102.0

74. Choose the sentence that is written correctly for a neighborhood health fair.

- A. The collection of essays are on the shelf.
- B. After the meeting the committee, reviewed the proposal.
- C. After the meeting, the committee reviewed the proposal.
- D. Maya submitted their draft before the deadline.

75. Which revision best improves clarity in this sentence about a student art exhibit: "The team, which had several plans, made a decision that was final"?

- A. The team had plans, and a decision was made by them finally.
- B. Several plans were there, making the team decision final, it was.
- C. The final decision, which was a decision, was made by the team.
- D. The team made a final decision after considering several plans.

76. A paragraph about a local business survey lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. Many people enjoy different activities on weekends.
- B. A local business survey can succeed when participants have a clear shared plan.
- C. The weather changes quickly during some seasons.
- D. One example is useful only after the conclusion is written.

77. Which transition best completes this idea about a science-club newsletter? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. As a result
- B. Meanwhile
- C. For example
- D. In contrast

78. Choose the sentence that is written correctly for a museum volunteer schedule.

- A. Maya submitted their draft before the deadline.
- B. After the meeting the committee, reviewed the proposal.
- C. The workshop ended early, so participants had time for questions.
- D. The collection of essays are on the shelf.

79. Which revision best improves clarity in this sentence about a neighborhood park proposal: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. Several plans were there, making the team decision final, it was.
- C. The final decision, which was a decision, was made by the team.
- D. The team had plans, and a decision was made by them finally.

80. A paragraph about a peer-mentoring report lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. The weather changes quickly during some seasons.
- B. A peer-mentoring report can succeed when participants have a clear shared plan.
- C. One example is useful only after the conclusion is written.
- D. Many people enjoy different activities on weekends.

81. Which transition best completes this idea about a city-bus feedback form? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. For example
- B. Meanwhile
- C. As a result
- D. In contrast

82. Choose the sentence that is written correctly for a campus food-drive notice.

- A. Maya submitted their draft before the deadline.
- B. The collection of essays are on the shelf.
- C. After the meeting the committee, reviewed the proposal.
- D. Walking across campus, I noticed the new signs.

83. Which revision best improves clarity in this sentence about a job-training brochure: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. Several plans were there, making the team decision final, it was.
- C. The team had plans, and a decision was made by them finally.
- D. The final decision, which was a decision, was made by the team.

84. A paragraph about a community-theater memo lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. The weather changes quickly during some seasons.
- B. Many people enjoy different activities on weekends.
- C. A community-theater memo can succeed when participants have a clear shared plan.
- D. One example is useful only after the conclusion is written.

85. Which transition best completes this idea about a digital-literacy workshop? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. For example
- B. As a result
- C. In contrast
- D. Meanwhile

86. Choose the sentence that is written correctly for a neighborhood health fair.

- A. After the meeting the committee, reviewed the proposal.
- B. Maya submitted their draft before the deadline.
- C. The collection of essays are on the shelf.
- D. After the meeting, the committee reviewed the proposal.

87. Which revision best improves clarity in this sentence about a student art exhibit: "The team, which had several plans, made a decision that was final"?

- A. The final decision, which was a decision, was made by the team.
- B. The team made a final decision after considering several plans.
- C. Several plans were there, making the team decision final, it was.
- D. The team had plans, and a decision was made by them finally.

88. A paragraph about a local business survey lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. A local business survey can succeed when participants have a clear shared plan.
- B. Many people enjoy different activities on weekends.
- C. One example is useful only after the conclusion is written.
- D. The weather changes quickly during some seasons.

89. Which transition best completes this idea about a science-club newsletter? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. For example
- B. In contrast
- C. Meanwhile
- D. As a result

90. Choose the sentence that is written correctly for a museum volunteer schedule.

- A. Maya submitted their draft before the deadline.
- B. The collection of essays are on the shelf.
- C. The workshop ended early, so participants had time for questions.
- D. After the meeting the committee, reviewed the proposal.

91. Which revision best improves clarity in this sentence about a neighborhood park proposal: "The team, which had several plans, made a decision that was final"?

- A. Several plans were there, making the team decision final, it was.
- B. The team had plans, and a decision was made by them finally.
- C. The final decision, which was a decision, was made by the team.
- D. The team made a final decision after considering several plans.

92. A paragraph about a peer-mentoring report lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. A peer-mentoring report can succeed when participants have a clear shared plan.
- B. Many people enjoy different activities on weekends.
- C. The weather changes quickly during some seasons.
- D. One example is useful only after the conclusion is written.

93. Which transition best completes this idea about a city-bus feedback form? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. In contrast
- B. As a result
- C. Meanwhile
- D. For example

94. Choose the sentence that is written correctly for a campus food-drive notice.

- A. The collection of essays are on the shelf.
- B. Maya submitted their draft before the deadline.
- C. Walking across campus, I noticed the new signs.
- D. After the meeting the committee, reviewed the proposal.

95. Which revision best improves clarity in this sentence about a job-training brochure: "The team, which had several plans, made a decision that was final"?

- A. The final decision, which was a decision, was made by the team.
- B. Several plans were there, making the team decision final, it was.
- C. The team made a final decision after considering several plans.
- D. The team had plans, and a decision was made by them finally.

96. A paragraph about a community-theater memo lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. A community-theater memo can succeed when participants have a clear shared plan.
- B. The weather changes quickly during some seasons.
- C. Many people enjoy different activities on weekends.
- D. One example is useful only after the conclusion is written.

97. Which transition best completes this idea about a digital-literacy workshop? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. For example
- B. In contrast
- C. Meanwhile
- D. As a result

98. Choose the sentence that is written correctly for a neighborhood health fair.

- A. Maya submitted their draft before the deadline.
- B. After the meeting, the committee reviewed the proposal.
- C. The collection of essays are on the shelf.
- D. After the meeting the committee, reviewed the proposal.

99. Which revision best improves clarity in this sentence about a student art exhibit: "The team, which had several plans, made a decision that was final"?

- A. The final decision, which was a decision, was made by the team.
- B. Several plans were there, making the team decision final, it was.
- C. The team made a final decision after considering several plans.
- D. The team had plans, and a decision was made by them finally.

100. A paragraph about a local business survey lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. One example is useful only after the conclusion is written.
- B. Many people enjoy different activities on weekends.
- C. The weather changes quickly during some seasons.
- D. A local business survey can succeed when participants have a clear shared plan.

101. Which transition best completes this idea about a science-club newsletter? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. For example
- B. As a result
- C. In contrast
- D. Meanwhile

102. Choose the sentence that is written correctly for a museum volunteer schedule.

- A. The workshop ended early, so participants had time for questions.
- B. Maya submitted their draft before the deadline.
- C. After the meeting the committee, reviewed the proposal.
- D. The collection of essays are on the shelf.

103. Which revision best improves clarity in this sentence about a neighborhood park proposal: "The team, which had several plans, made a decision that was final"?

- A. The team had plans, and a decision was made by them finally.
- B. Several plans were there, making the team decision final, it was.
- C. The final decision, which was a decision, was made by the team.
- D. The team made a final decision after considering several plans.

104. A paragraph about a peer-mentoring report lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. A peer-mentoring report can succeed when participants have a clear shared plan.
- B. Many people enjoy different activities on weekends.
- C. The weather changes quickly during some seasons.
- D. One example is useful only after the conclusion is written.

105. Which transition best completes this idea about a city-bus feedback form? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. Meanwhile
- B. As a result
- C. In contrast
- D. For example

106. Choose the sentence that is written correctly for a campus food-drive notice.

- A. Maya submitted their draft before the deadline.
- B. After the meeting the committee, reviewed the proposal.
- C. Walking across campus, I noticed the new signs.
- D. The collection of essays are on the shelf.

107. Which revision best improves clarity in this sentence about a job-training brochure: "The team, which had several plans, made a decision that was final"?

- A. The team had plans, and a decision was made by them finally.
- B. The team made a final decision after considering several plans.
- C. The final decision, which was a decision, was made by the team.
- D. Several plans were there, making the team decision final, it was.

108. A paragraph about a community-theater memo lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. A community-theater memo can succeed when participants have a clear shared plan.
- B. The weather changes quickly during some seasons.
- C. Many people enjoy different activities on weekends.
- D. One example is useful only after the conclusion is written.

109. Which transition best completes this idea about a digital-literacy workshop? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. In contrast
- B. For example
- C. As a result
- D. Meanwhile

110. Choose the sentence that is written correctly for a neighborhood health fair.

- A. After the meeting the committee, reviewed the proposal.
- B. The collection of essays are on the shelf.
- C. Maya submitted their draft before the deadline.
- D. After the meeting, the committee reviewed the proposal.

111. Which revision best improves clarity in this sentence about a student art exhibit: "The team, which had several plans, made a decision that was final"?

- A. The final decision, which was a decision, was made by the team.
- B. Several plans were there, making the team decision final, it was.
- C. The team had plans, and a decision was made by them finally.
- D. The team made a final decision after considering several plans.

112. A paragraph about a local business survey lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. A local business survey can succeed when participants have a clear shared plan.
- B. One example is useful only after the conclusion is written.
- C. Many people enjoy different activities on weekends.
- D. The weather changes quickly during some seasons.

113. Which transition best completes this idea about a science-club newsletter? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. In contrast
- B. For example
- C. As a result
- D. Meanwhile

114. Choose the sentence that is written correctly for a museum volunteer schedule.

- A. Maya submitted their draft before the deadline.
- B. The workshop ended early, so participants had time for questions.
- C. The collection of essays are on the shelf.
- D. After the meeting the committee, reviewed the proposal.

115. Which revision best improves clarity in this sentence about a neighborhood park proposal: "The team, which had several plans, made a decision that was final"?

- A. The final decision, which was a decision, was made by the team.
- B. Several plans were there, making the team decision final, it was.
- C. The team made a final decision after considering several plans.
- D. The team had plans, and a decision was made by them finally.

116. A paragraph about a peer-mentoring report lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. A peer-mentoring report can succeed when participants have a clear shared plan.
- B. One example is useful only after the conclusion is written.
- C. Many people enjoy different activities on weekends.
- D. The weather changes quickly during some seasons.

117. Which transition best completes this idea about a city-bus feedback form? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. Meanwhile
- B. As a result
- C. For example
- D. In contrast

118. Choose the sentence that is written correctly for a campus food-drive notice.

- A. The collection of essays are on the shelf.
- B. Maya submitted their draft before the deadline.
- C. After the meeting the committee, reviewed the proposal.
- D. Walking across campus, I noticed the new signs.

119. Which revision best improves clarity in this sentence about a job-training brochure: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. Several plans were there, making the team decision final, it was.
- C. The final decision, which was a decision, was made by the team.
- D. The team had plans, and a decision was made by them finally.

120. A paragraph about a community-theater memo lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. Many people enjoy different activities on weekends.
- B. One example is useful only after the conclusion is written.
- C. The weather changes quickly during some seasons.
- D. A community-theater memo can succeed when participants have a clear shared plan.

121. Which transition best completes this idea about a digital-literacy workshop? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. Meanwhile
- B. As a result
- C. In contrast
- D. For example

122. Choose the sentence that is written correctly for a neighborhood health fair.

- A. After the meeting the committee, reviewed the proposal.
- B. Maya submitted their draft before the deadline.
- C. After the meeting, the committee reviewed the proposal.
- D. The collection of essays are on the shelf.

123. Which revision best improves clarity in this sentence about a student art exhibit: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. The final decision, which was a decision, was made by the team.
- C. The team had plans, and a decision was made by them finally.
- D. Several plans were there, making the team decision final, it was.

124. A paragraph about a local business survey lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. The weather changes quickly during some seasons.
- B. A local business survey can succeed when participants have a clear shared plan.
- C. Many people enjoy different activities on weekends.
- D. One example is useful only after the conclusion is written.

125. Which transition best completes this idea about a science-club newsletter? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. In contrast
- B. Meanwhile
- C. For example
- D. As a result

126. Choose the sentence that is written correctly for a museum volunteer schedule.

- A. The collection of essays are on the shelf.
- B. After the meeting the committee, reviewed the proposal.
- C. The workshop ended early, so participants had time for questions.
- D. Maya submitted their draft before the deadline.

127. Which revision best improves clarity in this sentence about a neighborhood park proposal: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. The final decision, which was a decision, was made by the team.
- C. Several plans were there, making the team decision final, it was.
- D. The team had plans, and a decision was made by them finally.

128. A paragraph about a peer-mentoring report lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. The weather changes quickly during some seasons.
- B. A peer-mentoring report can succeed when participants have a clear shared plan.
- C. Many people enjoy different activities on weekends.
- D. One example is useful only after the conclusion is written.

129. Which transition best completes this idea about a city-bus feedback form? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. In contrast
- B. Meanwhile
- C. As a result
- D. For example

130. Choose the sentence that is written correctly for a campus food-drive notice.

- A. The collection of essays are on the shelf.
- B. After the meeting the committee, reviewed the proposal.
- C. Maya submitted their draft before the deadline.
- D. Walking across campus, I noticed the new signs.

131. Which revision best improves clarity in this sentence about a job-training brochure: "The team, which had several plans, made a decision that was final"?

- A. Several plans were there, making the team decision final, it was.
- B. The final decision, which was a decision, was made by the team.
- C. The team made a final decision after considering several plans.
- D. The team had plans, and a decision was made by them finally.

132. A paragraph about a community-theater memo lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. A community-theater memo can succeed when participants have a clear shared plan.
- B. One example is useful only after the conclusion is written.
- C. Many people enjoy different activities on weekends.
- D. The weather changes quickly during some seasons.

133. Which transition best completes this idea about a digital-literacy workshop? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. Meanwhile
- B. In contrast
- C. For example
- D. As a result

134. Choose the sentence that is written correctly for a neighborhood health fair.

- A. After the meeting the committee, reviewed the proposal.
- B. After the meeting, the committee reviewed the proposal.
- C. Maya submitted their draft before the deadline.
- D. The collection of essays are on the shelf.

135. Which revision best improves clarity in this sentence about a student art exhibit: "The team, which had several plans, made a decision that was final"?

- A. The team made a final decision after considering several plans.
- B. Several plans were there, making the team decision final, it was.
- C. The team had plans, and a decision was made by them finally.
- D. The final decision, which was a decision, was made by the team.

136. A paragraph about a local business survey lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. The weather changes quickly during some seasons.
- B. A local business survey can succeed when participants have a clear shared plan.
- C. Many people enjoy different activities on weekends.
- D. One example is useful only after the conclusion is written.

137. Which transition best completes this idea about a science-club newsletter? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. Meanwhile
- B. For example
- C. In contrast
- D. As a result

138. Choose the sentence that is written correctly for a museum volunteer schedule.

- A. After the meeting the committee, reviewed the proposal.
- B. Maya submitted their draft before the deadline.
- C. The workshop ended early, so participants had time for questions.
- D. The collection of essays are on the shelf.

139. Which revision best improves clarity in this sentence about a neighborhood park proposal: "The team, which had several plans, made a decision that was final"?

- A. The team had plans, and a decision was made by them finally.
- B. The team made a final decision after considering several plans.
- C. The final decision, which was a decision, was made by the team.
- D. Several plans were there, making the team decision final, it was.

140. A paragraph about a peer-mentoring report lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. Many people enjoy different activities on weekends.
- B. One example is useful only after the conclusion is written.
- C. A peer-mentoring report can succeed when participants have a clear shared plan.
- D. The weather changes quickly during some seasons.

141. Which transition best completes this idea about a city-bus feedback form? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. For example
- B. Meanwhile
- C. In contrast
- D. As a result

142. Choose the sentence that is written correctly for a campus food-drive notice.

- A. Walking across campus, I noticed the new signs.
- B. Maya submitted their draft before the deadline.
- C. The collection of essays are on the shelf.
- D. After the meeting the committee, reviewed the proposal.

143. Which revision best improves clarity in this sentence about a job-training brochure: "The team, which had several plans, made a decision that was final"?

- A. Several plans were there, making the team decision final, it was.
- B. The team made a final decision after considering several plans.
- C. The team had plans, and a decision was made by them finally.
- D. The final decision, which was a decision, was made by the team.

144. A paragraph about a community-theater memo lists details, examples, and a conclusion. Which sentence would best serve as its topic sentence?

- A. Many people enjoy different activities on weekends.
- B. One example is useful only after the conclusion is written.
- C. A community-theater memo can succeed when participants have a clear shared plan.
- D. The weather changes quickly during some seasons.

145. Which transition best completes this idea about a digital-literacy workshop? "The first draft identified several concerns. ____, the revised plan addressed each concern."

- A. As a result
- B. In contrast
- C. For example
- D. Meanwhile

146. Choose the sentence that is written correctly for a neighborhood health fair.

- A. The collection of essays are on the shelf.
- B. After the meeting the committee, reviewed the proposal.
- C. Maya submitted their draft before the deadline.
- D. After the meeting, the committee reviewed the proposal.

Practice Exam 9: Answer Key and Explanations

1. C — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 31, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

2. A — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 69, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

3. A — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 8.25, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

4. B — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 84, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

5. D — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 22.0, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

6. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 46, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

7. D — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 407, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

8. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 26, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

9. B — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 39, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

10. C — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 85, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

11. D — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 10.25, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

12. B — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 94, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

13. C — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 24.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

14. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 51, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

15. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 360, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

16. B — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 37, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

17. D — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 47, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

18. A — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 101, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

19. C — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 12.25, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

20. B — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 126, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

21. A — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 32.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

22. D — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 67, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

23. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 265, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

24. D — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 48, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

25. A — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 55, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

26. B — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 117, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

27. A — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 14.25, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

28. B — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 136, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

29. D — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 35.0, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

30. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 72, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

31. B — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 793, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

32. D — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 48, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

33. C — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 63, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

34. A — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 133, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

35. D — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 16.25, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

36. B — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 146, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

37. C — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 37.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

38. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 77, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

39. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 690, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

40. B — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 59, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

41. A — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 71, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

42. D — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 149, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

43. C — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 18.25, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

44. B — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 178, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

45. A — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 40.0, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

46. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 82, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

47. D — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 539, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

48. D — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 70, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

49. B — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 79, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

50. A — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 165, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

51. C — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 20.25, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

52. A — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 188, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

53. D — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 48.0, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

54. B — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 98, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

55. D — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 1275, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

56. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 81, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

57. C — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 87, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

58. B — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 181, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

59. D — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 22.25, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

60. A — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 198, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

61. B — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 50.5, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

62. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 103, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

63. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 1116, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

64. C — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 81, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

65. D — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 95, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

66. B — This linear modeling item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 197, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

67. C — This percent reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 24.25, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

68. A — This geometry item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 208, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

69. D — This data reasoning item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 53.0, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

70. B — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 108, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

71. D — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 909, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

72. A — This arithmetic item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 92, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

73. B — This linear equations item requires a careful calculation. Identify the operation, substitute the given values, and keep the units consistent. The calculation from the stem gives 103, so the keyed option is correct. The other choices reflect a common sign, order-of-operations, or unit error and do not satisfy the stated relationship.

74. C — The keyed choice is correct because it use a comma after an introductory phrase. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

75. D — The keyed choice is correct because it maintain subject-verb agreement. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

76. B — The keyed choice is correct because it use the pronoun that clearly refers to its noun. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

77. A — The keyed choice is correct because it avoid a sentence fragment. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

78. C — The keyed choice is correct because it avoid a run-on sentence. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

79. A — The keyed choice is correct because it choose the concise, direct wording. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

80. B — The keyed choice is correct because it use parallel structure in a series. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

81. C — The keyed choice is correct because it use a semicolon to join related independent clauses. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

82. D — The keyed choice is correct because it place the modifier next to the word it describes. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

83. A — The keyed choice is correct because it select a transition showing contrast. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

84. C — The keyed choice is correct because it choose evidence that directly supports the claim. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

85. B — The keyed choice is correct because it state the main idea without adding an unsupported detail. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

86. D — The keyed choice is correct because it use a comma after an introductory phrase. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

87. B — The keyed choice is correct because it maintain subject-verb agreement. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

88. A — The keyed choice is correct because it use the pronoun that clearly refers to its noun. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

89. D — The keyed choice is correct because it avoid a sentence fragment. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

90. C — The keyed choice is correct because it avoid a run-on sentence. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

91. D — The keyed choice is correct because it choose the concise, direct wording. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

92. A — The keyed choice is correct because it use parallel structure in a series. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

93. B — The keyed choice is correct because it use a semicolon to join related independent clauses. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

94. C — The keyed choice is correct because it place the modifier next to the word it describes. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

95. C — The keyed choice is correct because it select a transition showing contrast. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

96. A — The keyed choice is correct because it choose evidence that directly supports the claim. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

97. D — The keyed choice is correct because it state the main idea without adding an unsupported detail. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

98. B — The keyed choice is correct because it use a comma after an introductory phrase. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

99. C — The keyed choice is correct because it maintain subject-verb agreement. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

100. D — The keyed choice is correct because it use the pronoun that clearly refers to its noun. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

101. B — The keyed choice is correct because it avoid a sentence fragment. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

102. A — The keyed choice is correct because it avoid a run-on sentence. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

103. D — The keyed choice is correct because it choose the concise, direct wording. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

104. A — The keyed choice is correct because it use parallel structure in a series. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

105. B — The keyed choice is correct because it use a semicolon to join related independent clauses. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

106. C — The keyed choice is correct because it place the modifier next to the word it describes. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

107. B — The keyed choice is correct because it select a transition showing contrast. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

108. A — The keyed choice is correct because it choose evidence that directly supports the claim. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

109. C — The keyed choice is correct because it state the main idea without adding an unsupported detail. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

110. D — The keyed choice is correct because it use a comma after an introductory phrase. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

111. D — The keyed choice is correct because it maintain subject-verb agreement. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

112. A — The keyed choice is correct because it use the pronoun that clearly refers to its noun. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

113. C — The keyed choice is correct because it avoid a sentence fragment. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

114. B — The keyed choice is correct because it avoid a run-on sentence. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

115. C — The keyed choice is correct because it choose the concise, direct wording. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

116. A — The keyed choice is correct because it use parallel structure in a series. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

117. B — The keyed choice is correct because it use a semicolon to join related independent clauses. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

118. D — The keyed choice is correct because it place the modifier next to the word it describes. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

119. A — The keyed choice is correct because it select a transition showing contrast. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

120. D — The keyed choice is correct because it choose evidence that directly supports the claim. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

121. B — The keyed choice is correct because it state the main idea without adding an unsupported detail. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

122. C — The keyed choice is correct because it use a comma after an introductory phrase. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

123. A — The keyed choice is correct because it maintain subject-verb agreement. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

124. B — The keyed choice is correct because it use the pronoun that clearly refers to its noun. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

125. D — The keyed choice is correct because it avoid a sentence fragment. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

126. C — The keyed choice is correct because it avoid a run-on sentence. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

127. A — The keyed choice is correct because it choose the concise, direct wording. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

128. B — The keyed choice is correct because it use parallel structure in a series. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

129. C — The keyed choice is correct because it use a semicolon to join related independent clauses. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

130. D — The keyed choice is correct because it place the modifier next to the word it describes. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

131. C — The keyed choice is correct because it select a transition showing contrast. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

132. A — The keyed choice is correct because it choose evidence that directly supports the claim. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

133. D — The keyed choice is correct because it state the main idea without adding an unsupported detail. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

134. B — The keyed choice is correct because it use a comma after an introductory phrase. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

135. A — The keyed choice is correct because it maintain subject-verb agreement. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

136. B — The keyed choice is correct because it use the pronoun that clearly refers to its noun. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

137. D — The keyed choice is correct because it avoid a sentence fragment. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

138. C — The keyed choice is correct because it avoid a run-on sentence. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

139. B — The keyed choice is correct because it choose the concise, direct wording. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

140. C — The keyed choice is correct because it use parallel structure in a series. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

141. D — The keyed choice is correct because it use a semicolon to join related independent clauses. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

142. A — The keyed choice is correct because it place the modifier next to the word it describes. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

143. B — The keyed choice is correct because it select a transition showing contrast. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

144. C — The keyed choice is correct because it choose evidence that directly supports the claim. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

145. A — The keyed choice is correct because it state the main idea without adding an unsupported detail. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.

146. D — The keyed choice is correct because it use a comma after an introductory phrase. The wording preserves the intended meaning and fits the full context. The other choices create a grammar, punctuation, clarity, or logic problem, or add an idea the text does not support. On the TSI, select the response that communicates the writer's point most precisely.
